Prochem Bravo Spotting

Another great and reliable spotting and upholstery machine from Prochem Europe. Also is great for car valeting BV100 Bravo carpet spotting and upholstery cleaning machine with hand tool and 8ft hoses

6 year (pro rata) warranty on tank and 1 year on parts
Unique moulded-in holders carry spray bottles for greater ease. Large six-inch wheels and pull-up transport handle plus cord wrap assembly make it a snap to wheel about. Carry-along handle increases portability. Small and light enough to carry with one hand. Quickly opens up for easy access. Large porthole on solution tank allows easy access for the maintenance of the recovery tank

Prochem Spot Pro Spotting Machine

Professional spot and upholstery cleaning machines from Prochem

The Spot Pro is a miniature extraction system with plenty of pressure to adequately wet and rinse as needed and enough lift to provide a good extraction on carpet or fabric.

Can be used to clean spots and stains on carpets and rugs. Is ideal to use on upholstery and can be used as a good sales tool as it will impress your customers.

- Solution tank 7.6 litters
- Recovery tank 8 litters

- Vacuum motor 2 stage by-pass
- Water lift / Air flow 2082 mm (82”) / 49.5 l/s (105 cfm)
- Power cable 7.6 meters (25 ft)
- Hose assembly 2.4 meters (8 ft)
- Hand / Upholstery tool 9 cm (3.5”) Plastic
- Weight 8.3 Kilos
- Shipping weight 12.7 kilos (with hose and tool)
- Dimensions 40 x 44 x 23 cm (h x l x w)
- Shipping dimensions 55 x 52 x 36 cm (h x l x w)
- Warranty 5 years (pro rata) on tank 1 year on parts
CFR35 Pro Spotter

The CFR35 commercial pro spotting machine is ideal for using where it is either not appropriate or too awkward to use a full size machine. The CFR35 is portable, lightweight, and extremely powerful.

The size and weight of the CFR35 make it ideal for touch ups, stain removal or just general cleaning in between full scale cleans and its impressive power makes such jobs an absolute doddle. The CFR35 pro can also be used like a wet vacuum machine to pick up small spills as soon as they happen helping to avoid any possible stains or unsightly browning.

The compact CFR35 spotting machine weighs only 16kg and can be effortlessly moved from one location to the next, or extend the telescoping handle and tilt the CFR35 back on it's 5" transport wheels for maximum go anywhere convenience. Likewise the CFR35 Pro’s hose is built to stretch so it can be as short as 2.5 feet for storage or as long as 10 so the operator does not have to constantly move the machine.

Included with the CFR35 is a 4" hand tool. The hose can also be fitted with an optional spotting wand. Now there is no need to use a big extractor when you only have a small problem, instead just whip out your pro spotter and do the job in half the time.

Product Specification:

- Solution Tank 13 litres
- Recovery Tank 9 litres
- Vacuum Motor 2-stage
- Solution Pressure 55 PSI
- Water Lift 89 inches
- CFM 104
- Switches Off, pump and vac, and vac
- Tank Construction Ultra heavy-duty housing
- Vacuum Hose 2.5' to 10' stretch vac hose
- Solution Hose 2.5' to 10' stretch vac hose
- Float Shut-Off Protects vacuum motor
- Wheels Rear mounted
- Weight 16 kg

The smallest truly professional carpet cleaning machine on the market today, this machine is ideal for cleaning smaller areas due to its compact size and efficient operating system. Like all Prochem machines the Galaxy comes with a wand and hose included in the price making all Prochem machines an absolute bargain. In this case the wand is 10" and the vacuum and solution hoses are 15ft. The Galaxy is also ideal for rug and upholstery cleaning as it is gentler on delicate fibres than some of the larger more powerful machines. Due to its low price and compact size this is one of our very best selling machines and includes a ticket to one of our highly respected training courses.

Prochem are one of the leading manufacturers of carpet cleaning machines and equipment. Their range of carpet and floor care products include: The Steempro range, the Fivestar, the Bravo, Polaris and the Galaxy. Not to mention the best truck mounts in town. Prochem also make a complete range of carpet cleaning chemicals and protectants. Look out for their Spot pro machine, ideal for upholstery and spotting jobs.

Features include: Lightweight and compact design fits easily into small vehicles, Powerful pump and vacuum give professional results, Stylish design with new “granite” scuff-resistant finish, Folding handle, Automatic vacuum shut-off.

Product specifications:

- Solution tank 18 litres
- Recovery tank 12 litres
- Solution pressure 4.8 bar (70psi)
- Vacuum motor 1 x 3 stage by-pass
- Water lift / airflow 3556 mm (140") / 70.7 l / s (150cfm)
- Hose assembly 4.6m (15ft)
- Carpet wand 25 cm (10") single jet
- Tank construction Polyethylene with aluminium base plate
- Wheels Rear stair climbing 18 cm (7") non-marking
- Front castors 6 cm (2.5") non-marking
- Power cable 7.6 metres (25 ft)
- Weight 22 kilos
- Dimensions 70 x 64 x 40 cm (h x l x w)
- Warranty 6 years (pro rata) on tank, 1 year on parts

Price Match! We will match any competitor’s price for all machines in this category. Training courses from as low as £95 (but free with this machine) now available through The Big Clean. Paul Pearce will be taking a number of training courses at The Big Clean.

All of these machines are covered by a 1 year warranty or guarantee so if it needs repairs (which is unlikely) we will arrange for it to be either repaired locally or we will collect and repair it for you ourselves. Call us free on 0800 0113 849 / 0208 393 4778 or email us if you have any question regarding delivery times. Discounts for multiple machine orders just phone for prices.
The Power of a Full size Upright Extractor in a Mini Package!!

The Prochem Fivestar is a highly compact, high performance walk behind carpet extractor. The Fivestar is the most professional small walk behind machine on the market. With the Fivestar you get the cleaning ability of a much larger machine but can transport and store it like a non professional domestic system. The Prochem Fivestar upright extractor enables any operator to achieve professional results and quick drying times with the minimum of effort. The Fivestar can also clean fabric upholstery with the optional upholstery tool as well as hard floors, tiles and grout with the built in “All-Floor” feature.

A completely self-contained design, combining a powerful pump and vacuum system with a power driven self-adjusting brush, means that there are no hoses or wands to attach. When cleaning hard to reach areas, simply connect the optional hand tool and hose to the back of the machine. When finished, the waste pail quickly removes for easy emptying with no hoses to detach. The Fivestar is a lightweight machine with a fold-down handle, compact solution and recovery tank and is perfectly suited for use in small hotels, guest houses, and nursing homes.

Features include: Patented self-adjusting, self-levelling brush and vacuum shoe for easy cleaning of all types of carpet, All-Floor solution control valve as standard, Optional hand tool attaches to back of unit for cleaning stairs, edges and upholstery, Handle adjusts to operator height and folds down for easy storage, Patented lift-off bucket makes filling and emptying easy and convenient. See-through recovery dome, Side extension cleans right up to skirting boards; Upright mounted motor and intercooler system combine for long-lasting operation, Free Training Voucher with this machine.

Product specifications:

- Solution pressure 3.5 bar (50psi)
- Vacuum motor 2 stage by-pass
- Water lift / airflow 2794 mm (110") / 52.8 l/s (112 cfm)
- Brush / motor Cylindrical 2500 rpm / 0.12kw
- Cleaning width 30 cm (12")
- Tank construction Polyethylene
- Wheels 17.7 cm (7") non-marking
- Power cable 7.6 metres (25 ft)
- Weight 18 kilos
- Shipping weight 24 kilos
- Dimensions 60 x 58 x 30 cm (h x l x w)
- Shipping dimensions 71 x 66 x 30 cm (h x l x w)
- Warranty 2 years on tank
Brand New Super Lightweight Upright Carpet Extractor!!

The Comet is a new low cost, self-contained carpet extraction cleaner with powerful brush agitation to clean carpets. The Comet Weighs only 18 kilos making it light enough for anyone to use and manoeuvre up and down stairs. Likewise the compact body and fold-down handle make it easy to transport and store and enable the operator to use the Comet in incredibly tight spaces. To service just remove two safety screws and the machine opens like a clamshell which enables both easy access and fast repairs.

The Comet is small enough to clean in tight spaces and corners yet powerful enough to perform well in any situation. A revolutionary bladder design eliminates the need to pour solution into the machine. Simply fill the bucket, set it on the machine, close the lid and begin cleaning. No more spills or mess! The one on-off switch is designed for operation simplicity.

Features include: Patented self-adjusting, self-leveling brush, optional hand / upholstery tool, handle adjusts to operator height and folds down for easy storage, patented lift-off bucket makes filling and emptying easy and convenient, see-through recovery dome, side extension cleans right up to skirting boards, upright vacuum motor and diaphragm pump for longer life, free Training voucher with this machine.

Product specifications:

- Solution tank 11.3 litres
- Lift-off recovery tank 11.3 litres
- Solution pressure 3.5 bar (50psi)
- Vacuum motor 2 stage by-pass
- Water lift / airflow 2159 mm (85") / 43.4 l/s (92 cfm)
- Brush / motor Cylindrical 3 row 2500 rpm / 0.12kw
- Cleaning width 30 cm (12")
- Tank construction Polyethylene
- Wheels 17.7 cm (7") non-marking
- Power cable 7.6 metres (25 ft)
- Weight 18 kilos
- Shipping weight 24 kilos
- Dimensions 60 x 58 x 30 cm (h x l x w)
- Shipping dimensions 71 x 66 x 30 cm (h x l x w)
- Warranty 2 years on tank 1 year on parts
The Super Powerful Steempro Powerflo is the Industry Standard for Wand extractors!!

The Steempro Powerflo is one of the most recognisable wand extraction machines on the market today. This powerhouse of a machine offers numerous benefits to the professional carpet cleaner due to its advanced design and technology. Despite the considerable power developed by the two three stage vacuums and the 70psi pump the Steempro is whisper quiet, in fact it is one of the quietest machines on the market today. The Steempro is also incredibly portable due to its compact size and relatively light weight. When equipped with the optional heat ‘n’ run heating system the Steempro can run on a continuous supply of hot solution ensuring one of the most proficient cleans available on the market today. Like all Prochem machines the Steempro comes complete with hoses and a single jet Glidemaster stainless steel wand making it an absolute bargain.

Features include: Upright mounted motors and intercooler give long life and durability, "Run-dry" reliable diaphragm pump, Opens quickly for easy access to internal components, "Whisper quiet" in-built silencer, Top handle-mounted switches, Automatic vacuum shut-off, New scuff resistant granite finish, Clip-on in-line heater (optional), Free Training Voucher with this machine, Steempro video (operation and maintenance)

Product specifications:

- Solution tank 35 litres
- Recovery tank 26 litres
- Solution pressure 4.8 bar (70psi)
- Vacuum motor 1 x 3 stage by-pass
- Water lift / airflow 3556 mm (140") / 70.7 l/s (150 cfm)

Prochems Maximum Power Wand Extractor!!

The Steempro Powermax is more powerful version of the legendary Powerflo. The Powermax combines dual 3-stage vacuum power with a new long life 100psi Triplex diaphragm pump. This machine is the ideal high-power carpet extractor for single operator use. The Steempro Powermax incorporates a large 35 litre solution tank in a compact body for maximum efficiency and portability; after all less refills mean a quicker turnaround time and more jobs. Like the Powerflo, the Powermax has a “whisper quiet” internal silencer making it very unobtrusive and is also equipped with upright mounted motors with intercooler units to help extend the lifespan of the machine. The Steempro Powermax represents the state-of-the-art in professional carpet soil extractors. The optional Heat ‘n’ Run in-line heat exchanger provides continuous hot cleaning solution. The machine comes complete with hoses and 2-jet Glidemaster stainless steel wand.

Features include: Dual 3-stage vacuums, New 100psi Triplex diaphragm pump, “Whisper quiet” in-built silencer, Top handle-mounted switches, Automatic vacuum shut-off, New scuff resistant granite finish, Clip-on in-line heater (optional), Free Training Voucher with this machine, Steempro video (operation and maintenance)

Product Specifications:

- Solution tank 35 litres
- Recovery tank 26 litres
- Solution pressure 6.8 bar (100psi)
- Vacuum motors 2 x 3 stage by-pass
- Water lift / airflow 5588mm (220”)/113 l/s (240 cfm)
- Hose assembly 7.6m (25ft)
- Carpet wand 30 cm (12") dual jet, S-bend
- Tank construction Polyethylene with aluminium base plate
- Wheels Rear stair climbing 25 cm (10") non-marking
- Front castors 10 cm (4") non-marking
- Power cable 7.6 metres (25 ft)
- Weight 38 kilos
- Shipping weight 45 kilos
- Dimensions 89 x 78 x 45 cm (h x l x w)
- Shipping dimensions 90 x 80 x 49 cm (h x l x w)
- Warranty 2 years on tank 1 year on parts
Prochem Steempro Powerplus

The larger version of the Powermax extraction machine has a 55 Litre solution tank and 120 p.s.i. The extra solution capacity in this machine allows for even longer operation. This is a perfect machine for a new stat up carpet cleaning business and for experienced and busy operators alike. For just £160.00 more than the Powermax, you can have the Powerplus which has a much larger solution tank. Comes with hose and twin jet Glidemaster wand.

New scuff-resistant granite finish Steempro 2000 machines are the latest and most advanced in Prochem’s range of portable soil extractors. These carpet cleaning machines are the best selling portables on the market today, they are the ideal high-power carpet cleaning machine / hot water extractor, for the single operator. The Steempro 2000 is 'whisper quiet' thanks to its' internal silencer which makes it one of the quietest carpet cleaning machines on the market. The Powerplus has a 55 Litre solution tank and a 41 Litre recovery tank allowing for more cleaning before the need to refill and empty the machine. Each machine comes complete with hoses and Glidemaster stainless steel wand. This stunning design will impress your customers and make your company look more professional. It will also look good for longer than its competitors due to its resilient finish. The Steempro has an automatic cut off valve, that stops the vacuum when the recovery tank is full-saving the motors from water damage.

Product specifications:

- Warranty 6 years (pro-rata) on tank, 1 year on parts
- Solution Tank = 55 litres Recovery Tank = 41 litres
- Solution Pressure = 8.0 bar (120 psi)
- Vacuum Motor = 2 x 3 stage by-pass
- Water Lift / Airflow = 5588mm (220")/113 l/s(240 cfm)
- Hose Assembly = 7.6m - 25ft
- Carpet Wand = 30 cm - 12in twin jet
- Tank Construction Polyethylene with aluminium baseplate
- Wheels Rear stair climbing 25 cm - 10cm
- non-marking Front castors 10 cm - 4in
- Weight = 44 kilos
- Shipping Weight = 53 kilos
The Polaris 500 it’s out of this World!! (left of picture)

The Polaris range is Prochem’s state-of-the-art self contained carpet walk behind soil extractors. When you have a really large area to clean these are the machines you want. The Polaris range provides unequalled features for the professional carpet cleaner. The Polaris uses a self-contained extractor with Prochem’s powerbrush technology to really agitate the carpet and ensure you get as much dirt out as possible in each pass. The 500 has a 19.5 Litre tank and a two stage motor, there is less need for high powered vacuum’s and pumps in walk behind machines as there is no loss of pressure or suction as there is no hose or wand. The Polaris 500 is the smallest of the Polaris range but this also makes it the most nimble and manoeuvrable.

Features Include: Full floating and self-levelling cylindrical powerbrush eliminates the need for continual manual adjustment, Choice of four models with single or twin vacuum motors, Increased vacuum airflow reduces drying times and gives faster cleaning, up to 300 sq.metres per hour, Hinged body provides safe, quick and easy access to all internal components, Optional accessories and hand tools can be attached for immediate use, Patented four-wheel design, allows pivoting on front or rear wheels for increased manoeuvrability, Fully adjustable handle, suits any operator, 70 decibel silencer fitted as standard, ideal for 'quiet cleaning areas,' "See-thru" recovery dome and easy lift-off buckets, no hoses to detach, Free Training Voucher with these machines.

Product Specifications:

- Solution tank 19 litres
- Solution pressure 4.8 bar (70psi)
- Vacuum motor(s) 1 x 2 stage by-pass
- Water lift / airflow 2794 mm (110") / 54.3 l/s (115 cfm)
- Brush / motor Cylindrical 2100 rpm / 0.12kw
- Cleaning width 35 cm (14")
- Tank construction Polyethylene
- Wheels 17 cm (7") non-marking
- Power cable 7.6 metres (25 ft)
- Weight 30 kilos
- Shipping weight 43 kilos
- Dimensions (h x l x w) 99 x 76 x 35 / 43 cm
- Shipping dimensions (h x l x w) 101 x 81 x 50 cm
- Warranty 2 years on tank 1 year on parts
Polaris 700

Professional Walk Behind carpet cleaning machines from Prochem

Upright self-contained power brush carpet & upholstery cleaning machines

Prochem's state-of-the-art self-contained carpet soil extractors provide unequalled features for the institutional and commercial carpet cleaner. Whatever your priority, there's a Polaris self-contained extractor with powerbrush that's right for you. The Polaris 800 & 1200 have the cleaning power to tackle large open areas, yet handle like lightweights. The Polaris 500 & 700 offer unrivalled portability, ease of operation and performance.

Features:

- Full floating and self-levelling cylindrical powerbrush, eliminates the need for continual manual adjustment.
- Choice of four models, with single or twin vacuum motors.
- Increased vacuum airflow reduces drying times and gives faster cleaning, up to 300 sq.metres per hour.
- Hinged body, provides safe, quick and easy access to all internal components.
- Optional accessories and hand tools, can be attached for immediate use.
- Patented four-wheel design, allows pivoting on front or rear wheels for increased manoeuvrability.
- Fully adjustable handle, suits any operator.
- 70 decibel silencer fitted as standard, ideal for 'quiet cleaning areas.'
- "See-thru" recovery dome and easy lift-off buckets, no hoses to detach.
- Free Training Voucher with these machines
Powr Flite PFX1080 38 Litre Cold Water Extractor, 100 PSI

The PFX1080 Mid-Sized Extractor has ample power to clean even the dirtiest carpets with ease and get the superior results you would expect from Powr Flite.

The Compact design of the PFX1080 means it easily navigates tight spaces, staircases and elevators. This machine is ideal for domestic and commercial carpet cleaning, and makes an ideal startup machine for people looking to get into the industry.

100 PSI pressure Two 3-stage powerful Ametek vac motors deliver 220” of Waterlift Easy-load system enables operator to load and off-load without lifting machine. The PFX1080 has a powerful pump. It has enough power to clean even the dirtiest carpets. The twin 3-stage vacuum motors deliver tremendous recovery power. These motors are 50% more powerful than 2-stage motors and provide the recovery strength to get the job done.

Loaded with cleaning power, the new PFX1080's compact size, 10” transport wheels plus handle mounted loading wheels make it easy to transport, load and unload. Wand and power cord are included. We also do excellent startup packages with this and all of our machines giving you an opportunity to get started in the industry.

Product Specification:
- Solution Tank 38 Litres
- Recovery Tank 38 Litres
- Vacuum Motors Dual 3 Stage High Power 5.7"
- Water Lift 220” CFM 101
- Pump Motor Surflo PSI 100 PSI Pressure
- Wheels 10” Rear, 2.5” Swivel, 360° Front Casters
- Weight 38 Kg
Powr-Flite PFX1085 Mid Size 38 Litre
Perfect Heat Black Max

The Black Max portable extractor utilises Powr-Flite’s "Perfect Heat" system – This really is a super charged portable extractor with truckmount power!

The Black Max features two powerful 3-stage vacuum motors, which generate an impressive 220” of water lift at 101 CFM. The PFX1085Max-2 is also equipped with an incredibly powerful pump that produces up to 500psi giving you the power to blast the dirt out of even the filthiest carpets. This pump system is not only powerful but also very reliable allowing you to speed through large jobs hassle free.

The PFX1085Max-2 also features the patent pending Perfect Heat system for the hottest water temperature available in the portable market today. Dirt doesn’t stand a chance! The Perfect Heat system works by passing the clean water through a series of coils around the Vacuum motors. This draws heat away from the Motors cooling them down while preheating the water before it even reaches the inline heater. This combination of double heating ensures you will have consistently super hot water.

With the PFX1085Max-2 you get maximum power for super clean carpets that dry fast! The twin 3-stage vacuum motors deliver tremendous recovery power which can be increased even further by using the Black Max in conjunction with the amazing Wonder Wand.

Three stage motors are an incredible 50% more powerful than 2-stage motors making it easier quicker and less tiring to leave your customers carpets super clean and dry and provide the recovery strength to get the job done.

Product Specification:

- Solution Tank 38 Litres
- Recovery Tank 38 Litres
- Vacuum Motors Dual 3 Stage High Power 5.7"
- Heater 3 KW Inbuilt Heat Exchanger & Perfect Heat Coils
- Water Lift 220” CFM 101
- Pump Motor 1/2 HP Demand By-Pass Internally Limited PSI 0 - 500 Adjustable Pressure
- Wheels 10” Rear, 2.5” Swivel, 360° Front Casters
- Weight 48 Kg
Powr-Flite PFX1085PH-2 Mid Size 38 Litre Perfect Heat

The PFX1085PH-2 portable extractor utilises Powr-Flite’s "Perfect Heat" system – This really is a super charged portable extractor with truckmount power!

The PFX1085PH-2 features two powerful 3-stage vacuum motors, which generate an impressive 220” of water lift at 101 CFM. The PFX1085PH-2 is also equipped with an increaddibly powerful pump that produces up to 500psi giving you the power to blast the dirt out of even the filthiest carpets. This pump system is not only powerful but also very reliable allowing you to speed through large jobs hassle free.

The PFX1085PH-2 also features the patent pending Perfect Heat system for the hottest water temperature available in the portable market today. Dirt doesn’t stand a chance! The Perfect Heat system works by passing the clean water through a series of coils around the Vacuum motors. This draws heat away from the Motors cooling them down while preheating the water before it even reaches the inline heater. This combination of double heating ensures you will have consistently super hot water.

With the PFX1085PH-2 you get maximum power for super clean carpets that dry fast! The twin 3-stage vacuum motors deliver tremendous recovery power which can be increased even further by using the PFX1085PH-2 in conjunction with the amazing Wonder Wand.

Three stage motors are an incredible 50% more powerful than 2-stage motors making it easier quicker and less tiring to leave your customers carpets super clean and dry and provide the recovery strength to get the job done.

Product Specification:

- Solution Tank 38 Litres
- Recovery Tank 38 Litres
- Vacuum Motors Dual 3 Stage High Power 5.7"
- Heater 3 KW Inbuilt Heat Exchanger & Perfect Heat Coils
- Water Lift 220” CFM 101
- Pump Motor 1/2 HP Demand By-Pass Internally Limited PSI 0 - 500 Adjustable Pressure
- Wheels 10” Rear, 2.5” Swivel, 360° Front Casters
- Weight 48 Kg
CFR ECO 500 PH-

The CFR Eco 500 is just a little bit different than your average portable extractor.

Sure it has all the usual features you would expect to find in a super high end machine such as two incredibly powerful three stage vacuum’s and a 500psi adjustable pump capable of delivering 5 litres of water per minute.

The 500psi pump gives you the power to blast the dirt out of the carpet while the tornado like vacuum’s can recover almost all of the water due to their 220” of water lift at 101 CFM. The Eco 500’s water recovery can be increased even further by utilising the amazing wonder wand to achieve a figure of 93% water recovery.

However the Eco 500 has two key features that make it really stand out from the crowd. Firstly the CFR has only one solution tank as it recycles the dirty water to clean the carpet. The dirty water is passed through a series of filters which remove ever smaller particulate matter. By the time this filtered water leaves the wand it is almost pristine. CFR are the only manufacturer to use this technology and have perfected it so well that you recycle the water in the tank 7 times essentially turning a 38 Litre machine into a 266 Litre machine.

The economical nature of the Eco 500 make it ideal to use in large areas or anywhere that constantly emptying and filling a machine is problematic. Furthermore as you are reusing the water over and over again you use far less in tank chemicals than in a traditional machine.

The second revolutionary feature that makes the Eco 500 stand out from the crowd is the Perfect Heat system. The Perfect Heat system works by passing the clean water through a series of coils around the Vacuum motors. This draws heat away from the Motors cooling them down while preheating the water before it even reaches the inline heater. This combination of double heating ensures you will have consistently super hot water.

Product Specification:

- **Solution Tank** 38 Litres / Recycling Tank Recovery Tank
- **Vacuum Motors** Dual 3 Stage High Power 5.7"
- **Heater** 3 KW Inbuilt Heat Exchanger & Perfect Heat Coils
- **Water Lift** 220” CFM 101
- **Pump Motor** 1/2 HP Demand By-Pass Internally Limited PSI 0 - 500 Adjustable Pressure
- **Wheels** 10” Rear, 2.5” Swivel, 360° Front Casters
- **Weight** 48 Kg
CFR35 Pro Spotter

The CFR35 commercial pro spotting machine is ideal for using where it is either not appropriate or too awkward to use a full size machine. The CFR35 is portable, lightweight, and extremely powerful.

The size and weight of the CFR35 make it ideal for touch ups, stain removal or just general cleaning in between full scale cleans and its impressive power makes such jobs an absolute doddle. The CFR35 pro can also be used like a wet vacuum machine to pick up small spills as soon as they happen helping to avoid any possible stains or unsightly browning.

The compact CFR35 spotting machine weighs only 16kg and can be effortlessly moved from one location to the next, or extend the telescoping handle and tilt the CFR35 back on its 5" transport wheels for maximum go anywhere convenience. Likewise the CFR35 Pro’s hose is built to stretch so it can be as short as 2.5 feet for storage or as long as 10 so the operator does not have to constantly move the machine.

Included with the CFR35 is a 4” hand tool. The hose can also be fitted with an optional spotting wand. Now there is no need to use a big extractor when you only have a small problem, instead just whip out your pro spotter and do the job in half the time.

Product Specification:

- Solution Tank 13 litres
- Recovery Tank 9 litres
- Vacuum Motor 2-stage
- Solution Pressure 55 PSI
- Water Lift 89 inches
- CFM 104
- Switches Off, pump and vac, and vac
- Tank Construction Ultra heavy-duty housing
- Vacuum Hose 2.5’ to 10’ stretch vac hose
- Solution Hose 2.5’ to 10’ stretch vac hose
- Float Shut-Off Protects vacuum motor
- Wheels Rear mounted
- Weight 16 kg
CFR Carpet Machine Paramount 20

If you’ve got a large area of carpet to clean and want the very best, most efficient, fastest machine available then the CFR Paramount is the machine for you. The productivity of the Paramount is unrivalled it can literally clean 8000 square feet per hour and all that on a single tank of water.

By utilising a 95 Litre tank and CFR’s Continuous Flow Recycling technology the Paramount can breeze through even the very largest job with ease. Continuous Flow Recycling works by passing the dirty water through a series of filters which remove ever smaller particulate matter. By the time this filtered water leaves the wand it is almost pristine. CFR are the only manufacturer to use this technology and have perfected it so well that you recycle the water in the tank 7 times essentially turning a 95 Litre machine into a goliath 665 Litre Machine.

FASTER: The CFR Cascade 20 SP cleaning machine is designed to safely clean and maintain both large and small carpeted areas. It is a highly efficient, self-propelled cleaning system. The high volume Cascade 20 SP delivers cleaning solution at 400 PSI. It is a total cleaning system for carpet, upholstery, fabric wall panels and hard surfaces.

CLEANER: At 400 PSI and 4 litres per minute, the Cascade 20 SP cleaning machine is the new standard for portable cleaning systems on the market. It is designed to provide unmatched carpet, upholstery, hard surface cleaning and restoration. It is especially designed to clean virtually every surface in a building including modular office panels, fabric covered walls, grouted tile, marble and vinyl wall coverings to name a few.

DRIER: The unique patented CFR’s technology provides total solution control. The cleaning fluid never rests on the carpet. The Cascade 20 SP’s patented cleaning tools control the solution at all times. Solution is injected with air at a very high velocity. It passes through the carpet fibres and is pulled into the tank. This unique solution control system simply means drying times are cut to a fraction of conventional machines.

Product Specification:

- Solution Tank 95 Litres / Recycling
- Tank Tool Attachments Yes: Floor Wand, Upholstery Tool
- Vacuum Motors 3 Stage High Power 5.7"
- Drive Motor Transaxle Motor 230V / Self Propelled
- Water Lift 130" CFM 92 Pump Motor 1/2 HP
- Demand By-Pass Internally Limited
- PSI 0 - 400 Adjustable Pressure
- Wheels 10" Rear, 4"x2" Swivel, 360° Front Casters
- Dimensions W: 61cm x H: 109cm x L:114cm Weight 95 Kg
CFR Pro 500 Perfect Heat

As all professional cleaners know higher water temperatures generally mean a more effective clean, a fact that drives many manufacturers to claim their machines produce temperatures of up to 212°. However this claim is misleading as all heated extraction machines are capable of bursts of extreme heat, what is really important is maintaining a consistently high temperature throughout the clean. It is for this purpose that CFR envisaged the Perfect Heat system employed in the Pro 500.

The Perfect Heat carpet cleaning system utilises the heat produced by the Pro 500’s two powerful motors to heat the water. As the electricity that is generating the Pro 500’s impressive 500psi of cleaning power is also heating the water there is no need for an additional power supply. The use of only one power supply results in less amperage, less blown fuses and an incredibly simple operation procedure. In addition to the new Perfect Heat system the Pro 500 also includes CFR’s legendary filter system that reuses the cleaning solution drastically reducing dumping and refilling downtime. Contact us to see if this is the right machine for you.

The CFR 500 heats 20 degrees hotter than most of its competitors when in normal use. It does this without increasing its amperage meaning there’s less chance of blowing out fuse on a carpet cleaning job. 500 p.s.i of cleaning pressure will reduce the number of passes the carpet cleaning machine operator will have to make over the carpet with their wand. This will reduce you average job time allowing you to fit more jobs in. With the CFR Perfect Pro500, carpet cleaning machine, you’ll pretty much eliminate dumping and refilling down-time, so you can get every job done faster. In fact, the CFR Perfect Pro500 can add as much as two hours work time to your average day. That’s enough time to add one more job to your schedule. And getting more done in less time means more profit. It’s not about working harder, just smarter.

Product Specification:

- Solution Tank 57 litres
- Dimensions 56cm (width) x 104cm (height) x 74cm (depth)
- Vac Motor Dual two-stages
- CFM 101
- Waterlift 150 inches
- P.s.i. 500
- Pump Demand By-Pass Internally Limited
- Hoses 20 ft. vac hose/20 ft. Solution hose
- Wheels 12 inch non marking
CFR PRO500 Ozone

With the CFR Pro500 Ozone, you'll pretty much eliminate dumping and refilling down-time, so you can get every job done faster. In fact, the CFR Pro500 Ozone can add as much as two hours work time to your average day. That's enough time to add one more job to your schedule. And getting more done in less time means more profit.

It's not about working harder, just smarter. CFR uses a sophisticated, patented system to filter and reuse the cleaning solution. This system has been proven effective with ten years of use by professional carpet cleaners just like you.

CFR Ozone System destroys odour-causing bacteria, allergens and molecules. This economical environmental odour neutraliser actually destroys the source of the odour and leaves pure fresh oxygen in its place. It is excellent for smoke damage, mold, mildew, pet odour and other sources of odour commonly found in building maintenance and refurbishing. The Ozone unit will eliminate odour in any indoor location, including basements, kitchens, bathrooms and more. It also provides rapid deodorising for hotel/motel rooms, meeting rooms.

The Flagship of the entire RugBadger Line, the RugBadger Pro is the first choice for all serious area rug cleaners.

Harnessing over 40,000 harmonic vibrations a minute, the RugBadger Pro will vibrate out even the most stubborn soil and sediments caught deep in the fibers of any area rug.

The innovative design incorporates 50 high tech vibro straps with a full 1 HP motor guaranteed to drive dirt out of a rug no matter how impacted. The highly focused vibrations
put out by the RugBadger Pro has been shown in many cases to be even more effective than full size dusting machines.

The RugBadger Pro is completely portable and can be used in any any size facility, from a garage to a full size rug cleaning facility. It doesn't matter if you are a "one man" operation or own a fleet of trucks, The RugBadger Pro will make cleaning area rugs not only quick but profitable too.

The RugBadger Pro removes the dry heavy damaging soil & sediments from area rugs better than any other machine or cleaning method available. This is why carpet cleaners everywhere are saying the final step with their preferred cleaning system is now faster, easier and much more efficient.

The RugBadger EZ-Tower

The RugBadger EZ-Tower is one the easiest pieces of area rug cleaning equipment to use.

With "patent applied for" innovations, this area rug dry tower was designed so that just one person can:

* Assemble it in minutes
* Fit it into any type of workspace - like a 2-car garage
* Easily lift 400+ lb soaking wet rugs 6 feet high
* Use it without motors, pulleys, cables or ropes
The new centrifuges from the Big Clean were released to the UK market in July 2010.

1. Stainless steel drum
2. 9FT inner drum length
3. 83cm wide from wheel to wheel
4. Galvanized outer Drum
5. Electrostaticcly painted
6. Quiet running and less vibrations than older types
7. Labour saving
8. Time saving
9. Rinse option as standard
10. Reliability

The wheels on the 1200 Low Level Rug Drying Centrifuge make it easy to maneuver into place at your work shop or into your single car garage. This also keeps the weight down to a minimum due to not needing as much steel to make the legs as would be necessary on our next level of centrifuge.

Using the clever hose connection on the front of the centrifuge it is possible for fresh water to be injected into the middle of an area area rug while it's still inside the centrifuge! You can save time, money and labor by not always having to repeatedly rinse the same rug outside the machine again. The Low Level Centrifuge from The Big Clean can leave a rug dryer than conventional extraction in just a few minutes.

The Big Clean is...

Proudly introducing for the first time in the UK...A complete rug cleaning business with full training and support including some famous and hard to get hold of bits of equipment and accessories.

This is complete business package with everything you need to start cleaning oriental and area rugs. With training from two of the worlds’ top instructors.
included in even our most basic package you may want to take a peek at what is on offer.

An area rug bath is a tool for completely submerging rugs in water that require it (i.e. heavily soiled or urine contaminated) so they can be thoroughly cleaned.

In a single package you have everything needed for a totally optimized rug washing area in your facility.

This kit requires only a limited amount of space to use and is completely adjustable to your particular space. It is also designed to complement the Master Rug Cleaner programme.

- Large inflatable industrial super heavy wash pit
- pre-soak liner for urine soaked rugs
- 2 Rolls of heavy duty open grid floor matting for wash pit floor
- 10’’ inlet water distribution pole with soft brush
- 1 high flow pump with brass Y connector for dirty water discharge
- A blueprint for building a 12’x12’ rug float-drying and blocking table
- A high recovery Wonder wand built to remove moisture from fabrics
- Rug Badger and drying package included
- Master Rug Cleaner training course included
- Powerful extraction machine included

Your RugBadger Area Rug Cleaning Equipment

- RugBadger Pro for unloading over 90% of the dry dirt from area rugs before cleaning them
- RugRack Grids for tripling the rug dusting efficiency of a RugBadger
- EZ-Tower Dry Tower system to hang up to 276 linear feet of rugs to dry in small tight area
- Yorkster 500 Rug Finisher to make rugs soft to the touch and their colours brighter-

Your Essential Area Rug Studio Roller

This specially designed area rug roller works like a squeegee for rugs and is one of the few tools available you can actually
physically use on extremely delicate rugs. The rug roller is compact, lightweight, made of a non-marking polyurethane, chemically resistant material. Just using hand pressure alone this rug studio wand is very effective at squeezing water out of a rug or into one if it's being submerged under water.

This rug studio roller can also effectively massage WoolSafe cleaning solutions into the fibres which allows you to charge more for a guaranteed pet odour removal service.

It truly is an essential tool for all in-plant Oriental rug cleaning operations!

**Light Weight Motor Scrubber**  
Battery operated for your safety when working in the wash pit-very soft brush included. Great at massaging the shampoo into the pile of the rug.

**Your Portable Area Rug Water Extractor**  
Now You Can Capture Nearly The Full Power Of A Truckmount With Total Portability.

Once you finished giving an area rug a full immersion type washing, you'll want to extract as much water out of it as possible. This is an ideal unit for any size rug cleaning plant. The advantages are clear:

- **It’s fully automatic.** With the automatic pump-out and fill, you’ll never need to manually fill or empty it You’ll save money in time and labour costs.
- **With this portable extractor, you can eliminate all the noise, environmental pollution and high fuel costs of running your truckmount.**
- **It’s just plug-n-play.** Hook up the hoses, connect it in to 2 ordinary electrical wall sockets and you’re ready to go.
- **It’s almost as powerful as a truckmount.** At 500psi and 1.5 gallons per minute you’ll be extracting water from rugs nearly as fast (but cheaper) as your truck mounted unit.

The power, size, portability and versatility of this extractor make this unit the perfect choice for any size rug care facility.
The MasterForce Model 503 has two 3-stage vacuums. Automatic pump-out (can handle flood situations with 20 gallon per minute capabilities) and automatic water fill and chemical feed system. The 500 psi pump is a true 1.5 gallon per minute pump (like a truckmount). Or you can replace this extraction machine with any Powr Flite, CFR or Prochem machine.

**Oriental, Persian and Area Rug Cleaning training Programme**

Complete training is available for beginners or old pros alike with Paul Pearce taking the course you will learn so many secrets that you won’t remember them all. Which is why you get a full in-depth course manual to take home with you.

- One of the industry's foremost instructors for 3 full days
- Complete instruction on rug plant set-up
- Colour fastness testing - 3 different ways
- Multiple cleaning methods demonstrated
- Fringe correction (browning and dye migration)
- Urine decontamination
- Blocking
- Rug identification

**There are many ways to clean a rug and we are going to make you do them all. From pressure washing a rug to dry compound cleaning it and full odour decontamination methods.**

- Full water immersion
- Minimum moisture cleaning
- Surface cleaning using shampoo and hot water extraction

**And before you graduate you’ll also understand these 4 important components...**

- rug cleaning theory
- practical application
- hands-on techniques
- rug cleaning limitations

This course will also teach appropriate cleaning techniques and methods for professional cleaning, restoration and inspection service providers as well as others in related industries.

**Learn How To Up-sell!**

Each Big Rug Cleaning package comes with a set of DVDS from George Grijalva which is all about up-selling and making more off each item that is to be cleaned.

PRO 35 Dry & Wet Carpet & Floor Cleaner

The new PRO 35 has the versatility to dry and wet clean carpets and floors all in one machine. With IPX4 wet cleaning certification the PRO 35 comes complete with renovator, brush covers, transport trolley and blue standard brushes. Soft carpet and hard floor brushes are optional. Use the PRO 35 on carpets in conjunction with Fiberdri® carpet dry cleaning compound or Procaps encapsulation spray cleaner. On Studded rubber, PVC, safety flooring and all types of tiles and stone floors the PRO 35 can be used in conjunction with Prochem hard surface cleaners and the brown stiff floor brush or the black extra stiff floor brush.

FEATURES:
Compact design
Stainless steel body
Low noise level

CARPET
Dry compound carpet cleaning
Spray encapsulation carpet cleaning
Pile lifting
Dry soil removal

HARD FLOOR
Floor washing
Scrubbing / drying
Tile and grout cleaning

Product Specifications:
- Brush width 40.5 cm (16”)
- Brush Motor 600W 230V 4A 483 rpm
- Weight 21.3 kilos
- Dimensions (base unit) 23 x 40.5 x 28.5 cm (h x l x w)
- Coverage Carpets up to 100 sq.m / hr Hard floors up to 200 sq.m / hr
- Sound level 57.8 dB
- Dirty water capacity 2.8 litres
- Power cable 10 metres
Carpet Pro HD Carpet & Floor Rotary Cleaning Machine

New low speed rotary machine with heavy duty motor, complete with fitted solution tank and SAF-T-LOK handle safety switch. Suitable for carpet and floor scrubbing, bonnet mopping and floor stripping. This versatile rotary will give long lasting service and durability for all types of carpet and floor maintenance. All chrome and polished aluminium surfaces, adjustable handle, heavy-duty steel gear transmission, non-marking bumpers, and semi-pneumatic tires. 5 year manufacturers warranty on motor and transmission.

Features:
- Fitted with 15 litre solution tank
- Ultra quiet, ALL STEEL planetary transmission
- Extra thick, chrome plated handle tubes
- Handle safety switch
- Fully adjustable handle

Product Specifications:
- Motor 1HP 220-240V CE
- Gearbox Stainless steel planetary
- Speed 175 rpm
- Weight 39 kilos
- Brush & Pad size 38 cm (15”)

Floor Pro C143TS

Dual Speed Carpet & Floor Rotary Machine

New versatile two speed single disc rotary machine for bonnet buffing and shampooing of carpets and stripping, scrubbing, buffing and polishing of floors. The Floor Pro incorporates an ergonomic handle with lever operated positional control and a two speed switch for 154 rpm low speed scrubbing and stripping and 308 rpm high speed buffing and polishing all types of floors. A 430 mm 17” floor pad and bonnet drive board is included with the machine and a 12 litre solution tank and scrubbing, polishing and shampoo brushes are optional extras.

Features:
- Two speeds in one machine
- Heavy duty induction motor
Call 0208 3934778 for pricing and further information on any products in this catalogue

- Safety start-up handle switch
- Satellite and planetary gearbox
- Low noise level
- Ergonomic design for smooth operation

Product Specifications:

- Brush Motor  1000 - 1300W 50Hz 220-240V CE
- Gearbox  Satellite and planetary
- Speed 154 rpm low speed / 308 rpm high speed
- Weight  44 kilos
- Brush & Pad Size  430 mm (17”)
- Power Cable 15 m (50 ft)
- Noise Level  55 dba
- Dimensions  1200 x 542 x 430 mm (h x l x w)

**Bazooka Gum & Spot Removal System**

The innovative Bazooka gum removal machine lets you stand up whilst instantly removing spot after spot of ground-in gum, sticky sweets and adhesive from carpet, hard floors and concrete. No more back-breaking, messy, time consuming removal of gum spots. Use in conjunction with Prochem’s specially formulated Bazooka Spot Remover aerosol.

Product Specification:

Motor: High torque 230V with spring loaded brush
Construction: High impact structural plastic
Weight: 4 kilos (with aerosol fitted)

**Heat 'N' Run**

Self-contained 2.8 kw in-line heater designed exclusively for the Steempro range of carpet soil extractors. High capacity stainless steel heat tube with 65°C thermostat and re-settable hi-limit safety thermostat. Provides constant hot cleaning solution and conforms to CE requirements for isolated electrical unit. 25 ft power cable, illuminated rocker switch and heat indicator lamp. Fits Steempro heater mounting plates. For use only with Steempro machines fitted with high pressure relief valve.

Wonder Wand Triple Jet -

Triple Jet Wonder Wand 1,000 PSI

Built specifically for use with Full Size Extractors.

The Triple Jet Wonder Wand out-performs any other wand. You simply won't find another wand that is this easy to use with cleaning performance that tops the list. The easy-to-use Wonder Wand glides effortlessly across all types of carpet, dramatically reducing operator fatigue and stress injuries. With a Wonder Wand you work faster and with significantly less effort. You easily get more work done in less time, and without the aching back and shoulders at the end of the day.

The Wonder Wand’s patented technology never lets the solution come to rest on the carpet. This "solution control" process allows more solution to be pushed through the carpet fibers without soaking the backing and the pad. Solution is recovered instantaneously. As a result, carpets dry much faster. Whilst also recovering over 30% more solution than conventional wands.

The unique roller system allows you to roll the wand forward and back without the need to lift the wand! The final filter and quick release spray jets reduce clogging and provide for easy maintenance.

Wonder Wand Twin Jet 1,000 PSI

Built specifically for use with Mid Sized Extractors.

The Twin Jet Wonder Wand out-performs any other wand. You simply won't find another wand that is this easy to use with cleaning performance that tops the list. The easy-to-use Wonder Wand glides effortlessly across all types of carpet, dramatically reducing operator fatigue and stress injuries. With a Wonder Wand you work faster and with significantly less effort. You easily get more work done in less time, and without the aching back and shoulders at the end of the day.

The patented technology never lets the solution come to rest on the carpet. This "solution control" process allows more solution to be pushed through the carpet fibers without soaking the backing and the pad. Solution is recovered instantaneously.
As a result, carpets dry much faster. Whilst also recovering over 30% more solution than conventional wands.

Prochem Glidemaster 25cm single jet

The glidemaster 25cm single jet wand from prochem is a lightweight 'scrub-type' stainless steel wand with insulated handle and trigger, heavy duty valve, quick connect and single spray tip. The scrub action in the glidemaster helps to agitate the carpet removing more dirt and also helps remove any water and soap that remains in the carpet.

Prochem Glidemaster 30cm double jet s-bend

The glidemaster 30cm from Prochem is a professional carpet cleaning wand with an insulated handle and trigger, "swan neck" head, metal solution tubing and dual spray tips. The dual jets deliver a significantly wider cleaning path of 30cm meaning less passes are required whilst the s-bend is ergonomically designed to maximise user comfort.

Prochem “Easy-grip” stainless steel upholstery tool
Professional stainless steel upholstery tool with 1.8 m (6 ft) internal solution hose, vacuum hose and external 02 spray tip.

Prochem Upholstery Pro cleaning tool
New swivel head upholstery tool with internal spray bar and vacuum flushing and drying action. Leaves fabric virtually dry with no overspray. Adjustable pressure control and vacuum bleed with 3 m (10ft) internal hose and coupling protector. Choice of 2" or 1 ½" vacuum connections and male or female solution connector.
Call 0208 3934778 for pricing and further information on any products in this catalogue

**Heavy duty stair tool**
Stainless steel 15 cm (6”) wide stair tool with long handle, grip and 06 spray tip.

**Curtain Tool**
Stainless steel curtain cleaning tool with 15 cm (6”) perforated vacuum nozzle and 01 fine spray tip. *(Only for use in conjunction with wet extraction cleaning of washable curtains.)*

**Auto Detailer**
Durable stainless steel tool specially designed to clean effectively in tight spaces.

**Plastic Detailer**
Lower cost version of auto detailer with durable plastic head to monitor recovery (suitable for low heat solution only).
**Prochem Quad Jet S-bend**  
Lightweight cast stainless steel, 30 cm (12”) 4-jet (all models)

**Titanium wand**  
Ultra lightweight titanium wand. Easy to handle and control for strokes, 34 cm (13.5”) 6 jet

**Hard surface floor wand**  
Stainless steel S-bend 25 cm (10”) with brush and 4 internal jets

**Truck mount stair tool**  
High quality tool for extraction cleaning stair treads and carpet edges. 17 cm (7”) cast stainless steel head
Pressure washing gun
With fan jet and needle jet

Injection sprayer
High pressure 250 - 1000 psi 1 to 9 dilution

High profile dual hose reel
Stores 75 m (250 ft) of vacuum hose and 90 m (300 ft) solution hose

Vacuum hose
15m (50 ft) x 50 mm (2”) diameter, non-crush
Solution hose
15 m (50 ft) high pressure

Solution hose with control valve
15 m (50 ft) high pressure

Corner guard
Protects internal walls

Hose Ramp
High visibility safety ramp for truck-mount hoses

Mercury Pro Trigger Sprayer, 0.50L Yellow
Mercury Pro Heavy Duty Sprayer with Viton Seals

These Trigger Sprayers are very tough and stable sprayers. The double action system work on both the "in" and "out" squeeze giving a fine, constant and adjustable spray. They are much more durable than most sprayers and have good chemical compatibility.
CFR 500 DX-2 Commercial Dryer

This turbo dryer has the following features:

- Adjustable kickstand and 3 operating positions on model CFR500
- Plastic injection molded inlets for maximum airflow - no rusting
- Molded, easy-carry handles for easy portability
- Rotomolded high density polyethylene housing for rugged durability
- Extra large inlets to increase air flow
- Space saving stack able design
Apache air mover- Turbo driers

This high powered air mover from Prochem is for use in professional cleaning and flood work.

The Apache has a "turbulence free" housing design with dual venturi inlets, a 10" blower wheel, top mounted switches, non marking, non skid rubber feet and a clamp to hold carpet in position. 1 HP Motor.

F6 Axial Fan-Downdraft™

The new F6 Axial fan can dry carpet in as little as 15 minutes, using Downdraft™ technology.

Free Zip it stain remover when you order this fan

No more drying a room, one section at a time.

One whole room dryer will dry an entire room in as little as 15 minutes. Dryers or air movers are typically spaced around a room in various positions to take advantage of walls and other surfaces to dry carpets as quickly as possible. But, a typical dryer has limited surface coverage and does not take advantage of the warm air at the top of a room. The new F6 "whole" room dryer by Powr-Flite changes drying as we know it. No more leaving damp carpets to dry after you leave a job! The F6's 6-bladed precision pitched fan pulls warmer, drier air down, thorough the dryer, blowing it across the entire room for fast complete drying with only 1 dryer for the "whole" room.

Dry a whole room in minutes!

FOR IMMEDIATE RELEASE/TEST RESULTS Date: December 1, 2005
New F6 Whole Room Dryer With Downdraft Technology Dries the Entire Room in 15 Minutes!

Multiple positions for optimal drying times
FORTWORTH, TX. - Powr-Flite, a leading manufacturer of commercial floor care equipment
introduces the new F6 “Whole Room Dryer.” 15 minutes is all it takes to dry an entire room with the F6 axial fan with downdraft technology. We proved it! The test was simple. We emptied out an average sized conference room of 163 square feet and cleaned the carpet with a 10 gallon 200 p.s.i. heated extractor. When the carpet cleaning was complete, we put a F6 airmover in the center of the room, checking the carpet at 5 minute intervals. In 15 minutes, the carpet was dry to the touch and ready to move in furniture.

10 L Industrial Sprayer

10 Litre industrial heavy dusty plastic sprayer for carpet cleaning pre sprays.

Electric Pre Spray Applicator

Electric Applicators are changing the way you work and your image to customers. They look very professional and can help to apply products accurately and economically. They are perfect for pre-spray and protector applications. Here are some of the features of the 5.0 Litre Electric Applicator:

- Lightweight (6.5kg) stainless steel portable spray unit;
- Mains powered with 1.5m cable;
- 5.0 litre container with graduation marks;
- 4m of curly hose;
- Quick release couplings with instant shut-off at each end of the curly hose, making it quicker to plug into the spray unit;
- Fitted with a demand pump delivering a constant flow at 40psi;
- Instant shut-off gun. (Comes with 6501 tip)

Stainless Steel Fabric protector applicator gun

Stainless steel fabric protector applicator gun with coil hose and 5001 spray tip. Can be used with the 5 and 10 litre stainless steel sprayers that we sell.
8 Litre stainless steel pressure sprayer

BEST BUY! The Big Clean brings to you this well priced 8 Litre stainless steel pressure sprayer. It is a high quality stainless steel sprayer designed specifically for the professional user. It is probably the best priced sprayer on the market.

- Solid brass trigger, lance and pump assembly
- Chemically resistant hose and Viton seals/gaskets
- A choice of fan nozzle to suit the application
- Pressure gauge and relief valve
- Solid brass trigger, lance and pump assembly
- Chemically resistant hose and Viton seals/gaskets
- A choice of fan nozzle to suit the application
- Pressure gauge and relief valve
- Pair of shoulder straps
- Full repair kit issued as standard
- Laminated repair manual for easy maintenance

5 L Stainless Steel pressure sprayer

5 Litre stainless steel sprayer fitted with 8004 fan jet, Viton seals and pressure gauge.

10L Stainless Steel pressure sprayer

10 Litre stainless steel industrial pressure sprayer with gague, fan jet and viton seals.
Call 0208 3934778 for pricing and further information on any products in this catalogue

5 L Stainless Steel Fabric Applicator
Stainless steel fabric protector applicator with viton seals, pressure gauge, coil hose and fabric gun with 5001 fan tip.

Prochem hard floor squeegee / Scrub wand

Hard floor wand from Prochem

A new scrub wand from Prochem with swivel head, hard surface cleaning with 180 degrees brush and squeegee action with a single jet.

Prochem Swivel Head stair tool

Stair Tools from Prochem
An innovative new stair tool from Prochem which allows you to clean stairs without twisting or turning your arms and wrists. Long handle with swivel head and single jet.

CFR Wonder Wand
Recovers as much as 30% more solution than conventional wands. The results are carpets that are cleaner and dry faster. Overwetting is an industry problem. The Wonder Wand’s continuous flow solution control is the answer. This wand will not allow overwetting because the solution is instantaneously recovered.

CFR’s patented high energy application and recovery system is based on three unique principles:

1. High-Energy solution application atomises high velocity solution to power-wash each individual fibre providing the fastest dry time in the industry;
2. Instantaneous solution recovery integrates solution application and retrieval into a single, uninterrupted process. Since the solution is always in motion, it’s almost impossible to over wet fabrics;
3. Continuous flow recycling virtually eliminates dumping and refilling in the middle of a job,
because the patented CFR filtration system cleans the recovered solution and recycles it up to seven times without loss of cleaning effectiveness.

The best wand ever made!
Ergonomic - The Wonder Wand incorporates the latest in ergonomic design. The unique roller’ system allows the user to maintain a more upright posture to reduce back fatigue. It also allows the wand to be rolled forward on the return stoke, eliminating the need to pick the entire wand up. You will be amazed how this will reduce fatigue after a long day of cleaning.

Recovers as much as 30% more solution than conventional wands. Unique technology prevents any solution from soaking into the cushion and backing below. The results are carpets that are cleaner and dry faster.

The Wonder Wand wand combines patented industry technology with ergonomics. This high performance "Wonder Wand" is easy to operate on all carpet surfaces, it is especially recommended for medium to higher nap carpets. Ergonomically designed for comfort, this tool works in a industry standard motion for maximum results and 30% better recovery. Made of high quality stainless steel this tool will provide years of durable and heavy duty performance. The patented design provides water atomization and high performance recovery for complete solution control and minimum dry time. Total Fluid Control Prevents Over Wetting The patented high energy application and recovery system is based on two unique principles: High-Energy solution application atomizes high velocity solution to power-wash each individual fibre providing the fastest dry time in the industry. The Wonder Wand recovers 30% more solution than conventional wands.

Prochem upholstery tool
An easy grip upholstery cleaning hand tool from Prochem. Easy to use stainless steel upholstery tool with internal solution hose, vacuum hose and external spray.

Combination Hand Tool ( 3 Inch Hand Tool )
This is our best hand tool and it comes from the makers or the powr Flite Perfect pro500 Extraction machine with built in heat exchanger.
The 5” Combination Tool from is specifically designed for cleaning upholstery, small fabric pieces and high performance general spotting. The fully adjustable air inlet feature makes it easy to clean even fine fabrics.

Made of high quality stainless steel, these tools will provide years of durable/heavy duty performance. The patented design provides water atomisation and high performance recovery for complete solution control and minimum dry time. Requires short truck mount hose pictured below.

Includes 1 nozzle

CFR Truck Mount Conversion Hose

Commonly called a conversion or truck mount conversion hose. This hose contains the trigger mechanism that allows the hand tool to dispense the cleaning solution. CFR have made it so that you can use different high quality, internal jet general and upholstery hand tools with only one conversion hose saving you money and van space.

Foil Squares

These high tensile foil squares are designed to go under the legs of furniture to protect your carpet from damage caused by rust or sliding furniture. They also make moving furniture much easier.

Velvet Boffin Brush

This velvet boffin brush is designed to be used for grooming the pile of velvet carpets. It is constructed from incredibly soft metal bristles which are ideal for using on velvet pile carpets.
Call 0208 3934778 for pricing and further information on any products in this catalogue

Handi Groomer

Th Handi Groomer is a purpose built carpet rake designed specifically for use on the pile of a wide variety of carpets. The Handi Groomer is ideal for use on stairs, rugs and edges.

Prochem Buckets

Two large capacity buckets from Prochem ideal for transporting either clean or dirty water when you can’t get your machine to a tap or extraction point. Features an innovative deep set lip to ensure you won’t spill water all over your client’s floors and to make refilling your machine a breeze.

Dilution 1 to 333 pH 9.5 IRRITANT Irritating to eyes and skin.

Drum: 10 k

Prochem Fluoroseal Plus

Prochem Fluoroseal Plus Top quality, odourless fluorocarbon carpet protector which coats and protects fibres against water and oil based spillages. Exclusive formula contains stain blocker additive for re-treatment of stain resistant nylon carpets and also helps protect against static electricity. Apply by Prochem carpet protector applicator to new carpet or after extraction cleaning. White liquid. Coverage approx. 30m sq. to 50m sq. per 5 litres.

Ready-to-use pH 7

Fibres are coated with a protective barrier that reduces adhesion of dry soil allowing easier removal when vacuuming and cleaning.

Fluoroseal Plus contains stain blocker technology which help release and prevent staining from common food and drink colour additives.

Penetration of liquids is reduced, which makes spills easier to remove before they penetrate deep into the carpets' pile.

The invisible flouro polymers repel oily soils such as cooking fat, hair and body cells.
3" CFR Combo Tool C/W 6501 Nozzle - 10224A

The 3" combo tool is specifically designed for cleaning upholstery, small fabric pieces and high performance general spotting. The fully adjustable air inlet feature makes it easy to clean even fine fabrics. For maximum results and the very fastest drying time consider the combination tool with additional nozzles.

For use on any fabric, from carpet & upholstery to delicate drapery
Adjustable vacuum relief protects delicate fabrics
All stainless steel construction
Heavy-duty 1,000 p.s.i valve
Quick release spray jet for easy replacement and changing
5' Adapter conversion hose fits most extractors (optional)
02, 03, 04 Nozzles are also available

Special Purpose Hand Tool 7.5" - 10225A
Special Purpose Hand Tool 7.5"
The "Special Purpose Hand Tool" provides amazing results for stairs, office panels, fabric wall coverings and other large flat fabric covered surfaces. Add the lightweight "Extension Wand" (#10059A) and reach an additional 4 ft. to clean those hard to reach areas.

Perfect for office partitions, large stains and stairs
All Stainless Steel construction
Heavy duty 1,000 p.s.i valve
Quick release spray jet for easy replacement and changing
5' Adapter Hose fits most extractors (optional)

4" Plastic Detailer Tool - AA163
The ideal tool for low pressure carpet extractors for use on upholstery, stairs etc.

Hard Surface Hand Tool 7.5" - 10226A
The "Hard Surface Hand Tool" is especially designed for those tight hard surface areas including stairs and walls. Add the lightweight "Extension Wand" (#10059A) and reach an additional 4ft. to clean those hard to reach areas.

Perfect for office partitions, large stains and stairs

Black Max Axial Fan - PD10K
Black Max Axial Fan Downdraft Wholeroom Dryer / Airmover

The Black Max Downdraft Wholeroom Dryer incorporates the Swept Fan blade design that creates an astounding 9800 CFM at over 44mph that maximises surface coverage and minimises drying times.

Noise levels are also significantly reduced with the new Swept Fan blade, which efficiently draws warmer, drier air from above and blows it down and across the entire surface of the carpet. Designed for carpet cleaning and restoration professionals, the BlackMax Downdraft Dryer’s unique four-position design allows for the efficient drying of furniture, walls and ceilings as well as carpets.

High velocity airflow at over 9,800 CFM dries an average size room in just minutes
4-blade Swept Fan increases CFM which decreases drying time
2 speed motor for maximum versatility in multiple applications
4 heavy-duty casters to ensure safe use on uneven surfaces; 2 locking, 2 unlocking.
Heavy-duty design and components provide years of service
Stack up to 4 BlackMax Downdraft dryers for easy transport and storage
Cast aluminium legs feature a built-in cord wrap and carrying handles for added convenience and mobility
40" Hammer Head Propane Burnisher - HH40K
Hammerhead Dual-Head UHS Propane Buffing Machine / Burnisher

40" Burnishing Width
585cc Ohv v-valve Kawasaki engine
Catalytic muffler to minimise emissions
12V battery start
CentriVac (TM) Dust Collection System with innovative skirt design
RokBak (TM) deck for easy access pad installation from a standing position
Low profile design for improved manoeuvrability
Electric clutch stops pad rotation when lever is released
Quick release strap for easy cylinder installation and removal
EcoSense Emission Monitoring optional
Urethane tread wheels with precision bearings for ease of operation
Welded adjustable handle

Product Specification:

- Performance: 50,000 square feet per hour (4,600 square metres per hour)
- Engine: 585cc air-cooled
- Engine Speed: 3,600 RPM
- Burnishing Width: 40"
- Pad Speed: 1850 RPM
- Pad Size: 2 x 21" (53.3cm)
- Start: 12V battery
- Sound Level: 87 dB(A)
- Vibration: Less than 2.5 m/s²
- Length x Width x Height: 61.75" (157cm) x 46.5" (118cm) x 41" (104cm)
- Weight: 154kg
- Deck: Welded Steel
- Dust Control Skirt: Yes
Dynax Tile, Grout & Safety Floor Cleaner DYX10

Dynax Tile, Grout and Stone Cleaner will provide you with excellent cleaning results on tile floors, showers, bathrooms, kitchens, clay tile, pool tile, fine stone tile, grout, stone, marble, slate, granite, flagstone, Terrazzo, brick and ultra safety & non-skid floors. It will even clean the bottom of ponds, fountains or pools - anywhere there is a slime build-up.

Cuts through the toughest soil build-up! An excellent restorative cleaning product that will remove years of soil residue from tile, grout or stone surfaces. Not only restores hard floors, but can be used to maintain them on a daily basis as well. Effectively breaks down and removes old grease, oil, soap, dirt, scum, hard water deposits, mould and mildew residues, etc. from a wide variety of tile, grout and stone surfaces.

Features:
- Superior Cleaning Results
- No Toxic or Hazardous Acids or Butyls
- Removes Years of Soil Build-up
- No Sticky Soap or Detergent Residues
- Will Not Damage or Etch Tile, Grout or Stone
- Absolutely odorless
- Environmentally Conscious
- User Safe

Advanced Formulaion:
- Soap & Detergent Free
- Odour Free
- Non-Toxic
- Hypoallergenic
- NO VOC's
- NO Enzymes
- NO Bacteria
- NO Bleach
- NO Toxic Oxidizing or Reducing Agents

Dynax Tile, Grout and Stone Cleaner is the most advanced and effective cleaner of its type available on the market. Not only does it guarantee you extraordinary cleaning results, it is also totally safe.
Mix with hot or cold water and enjoy the enormous cost savings with an exceptional dilution ratio of 1:16 - 1:64. Can be used for manual small area cleaning applications such as with a rotary scrubber as well as in machines such as auto-scrubbers / scrubber-dryers for large surface cleaning.

Ceiling & Wall Cleaner CAW10

Ceiling & Wall Cleaner is a unique and highly effective cleaner. It removes soil residues such as smoke, soot, oil, nicotine and cooking vapours from porous and non-porous ceiling and wall surfaces. It breaks down the soil binders without the use of enzymes, detergents, bleaching agents or solvents. It can be applied to all water and colour fast surfaces. It cleans and restores surfaces that were previously unable to be properly cleaned and removes the toughest of soil residues.

Features:
- Superior Cleaning Results
- No Sticky Soap or Detergent Residues
- Removes Years of Soil Build-Up
- Environmentally Preferable
- No Toxic or Hazardous Butyls
- Will Not Bleach or Damage Surfaces
- Absolutely Odorless
- User Safe

ADVANCED FORMULATION CONTAINING
- Soap & Detergent Free
- Odour Free
- Non-Toxic
- Hypoallergenic
- NO VOC's
- NO Enzymes
- NO Bacteria
- NO Bleach
- NO Toxic Oxidizing or Reducing Agents

Ceiling and Wall Cleaner is the most advanced and effective cleaner of its type available on the market. Not only does it guarantee you extraordinary results, it is also totally safe! If you think that Ceiling & Wall Cleaners are created equally, your perception of "clean" will be changed after the first time you use our Ceiling & Wall Cleaner.

It can be used in areas with poor ventilation without the worry of harmful off-gasses.
Ceiling & Wall Cleaner is completely soap free and will not leave a soapy sticky residue behind that can lead to fast re-soiling. Enjoy huge cost savings with this exceptional product.

CFR A Excell - 3BM003

Solvent-free, acidic cleaner for natural or very delicate fibers. Formulated to be sensitive to dyes and natural fibers as well as brighten carpet and upholstery fibers by removing alkaline chemical residues from previous cleaning.

A EXCELL is a mildly acidic solvent free pre-spray and in tank recycling cleaner designed for cleaning natural fibres, delicate fabrics and areas where excessive bonneting has been involved.

A EXCELL is a concentrated, low foaming, water based cleaner especially designed for use with CFR Cleaning Systems. A EXCELL should not be used in conjunction with any alkaline based cleaner. Recommended especially for use on natural fibre surfaces.

Suitable On:
- Carpets: wool, cotton and synthetic fibres
- Upholstery: wool, cotton, delicate and synthetic fibres
- Restoration and browning removal
- To correct minor water damage

Features:
- Solvent Free
- Contains odour control agents
- Effective against many soils
- Effective in soft or hard water
- Has very good rinse ability, does not build up with repeated use
- Suitable for both in tank and pre-spray applications
- pH is lower than most cleaners
- Prevents build up of dulling hard water film
- Recycling property makes it cost effective
- Natural fibre cleaner
CFR Excell - 3BL003

Solvent-free and phosphorous-free, concentrated heavy duty cleaner to remove moderate to heavy duty soils on synthetic carpets, upholstery, and hard surfaces. Excell is a heavy duty general purpose, water based cleaner. It is solvent free and contains an odour neutralizing system. This product may be used as an in tank and/or prespray product.

Suitable for use on:
- Carpets: Synthetics, commercial, residential and automotive
- Upholstery: Synthetics, commercial, residential and automotive
- Walls that are water sensitive
- Hard or plastic floors not sensitive to mildly alkaline cleaners

Features and Benefits:
- Solvent Free
- Contains odour control agents
- Effective against many soils
- Effective in soft or hard water
- Has very good rinse ability, does not build up with repeated use
- Suitable for both in tank and pre-spray applications
- MEETS SPECIFICATIONS FOR FIFTH GENERATION CARPETS
- pH is lower than most cleaners
- Prevents build up of dulling hard water film
- Recycling property makes it cost effective
- Natural fibre cleaner
CFR Reclaim - 3AN003

Powerful water based cleaner designed for the reclamation of synthetic carpets, upholstery, and hard surfaces. Formulated to remove the types of heavy soils associated with disaster restoration and neglect.

Reclaim has the highest active content of any CFR water based recycling cleaner. It is designed for cleaning where heavy to very heavy soils are encountered. This product contains complex surfactants, sequestering and chelating agents, active polar solvents and chemical deodorants. It may also be used on hard surfaces that are not solvent sensitive such as marble, terrazzo or vinyl. Use as a prespray or in tank cleaner.

Suitable for use on:
- Carpets: Commercial, residential and automotive
- Upholstery: Commercial, residential and automotive
- Walls, floors and hard surfaces that are not solvent-sensitive
- For reclamation and fire restoration

Features and Benefits:
- Effective in both hot and cold water
- Effective on most soils, including greasy soil
- Excellent for fire and smoke restoration. pH is lower than most heavy duty cleaners
- Has very good rinse ability, does not build up with repeated use
- Recycling is very cost effective
- Contains excellent odour control agents
- Equally effective in both hard and soft water
- Prevents build up of dulling hard water film
CFR OZ Clean - 3CB003

CFR OZ-CLEAN™
Specifically designed to promote and accelerate the advantages of using Ozone in the CFR OZ-CARE System for total building and environmental hygiene. Oxidizes and breaks down organic soils and materials and reduces the volatilities and non-volatile organics discharged into the air.

OZ-CLEAN is an Ozone compatible liquid alkaline cleaner for carpets, upholstery and hard surfaces. It is designed specifically for use in systems where Ozone is introduced into the cleaning solution. OZ-CLEAN is designed to promote and accelerate the advantages of using Ozone in the CFR OZ-CARE™ System for total building and environmental hygiene. OZ-CLEAN is primarily inorganic in nature and is environmentally friendly. It leaves virtually no organic residues and has extended tank life even in the presence of Ozone. OZ CLEAN exhibits the following benefits and advantages when used in the CFR OZ-CARE System:

Features:
- Controls the availability of Ozone for cleaning, oxidizing and deodorizing
- Makes Ozone safe to use in a closed recycling cleaning system
- Acts as a booster, increasing the effectiveness of Ozone in oxidizing and breaking down organic soils and materials
- Leaves less residue than conventional carpet cleaners
- Eliminates the propensity to resoil from organic residuals left in carpet or on fabrics
- Promotes clean air by reducing the volatiles and non-volatile organics discharged into the air from vacuum systems
CFR ENZ Soil One - 3BK005

Powdered, heavy-duty enzyme cleaner designed for the removal of heavy and greasy soils from fabric and hard surfaces, especially effective in restaurant applications. 

ENZ-SOIL ONE is a heavy duty enzyme based product for pre-treatment and in-tank cleaning of synthetic carpets, fabrics and hard surfaces.

ENZ-SOIL ONE is a highly active powdered product containing protease and amylase enzymes with a special blend of wetting agents and plenty of reserve alkalinity for even the toughest of cleaning jobs.

Suitable for use on:
- Carpets, fabrics and hard surfaces
- Dining, kitchen and garbage areas of restaurants and food service operations

Features:
- Enzymes are stable (powder)
- Two types of enzymes for digesting both protein and greasy soils
- Long shelf life
- Buffered pH – safe for all synthetic fabrics
- Used as a powdered absorbent for oily and greasy spills
- Easily dissolved for use as a pre-spray
- High reserve alkalinity for neutralizing acidic soils
- No live micro-organisms
- Odour control
- Cost effective
- Recyclable
Zap It Special Spot & Stain Remover

Features:
Removes chewing gum, tape residue, grease, oil, tar, asphalt, wax, crayon, latex paint, lipstick, mascara and various hard to remove stains.
It is easy to use and can be applied to water and colour fast carpets or upholstery materials made with synthetic or natural fibres, glass, fibre glass, tiles, plexiglass, acrylic, bathroom tiles, wallpaper and more...

CFR Pro Spotting Kit - 60374A

5 Step Spotting Kit - Comes complete with Caddy and Brush for removing 99% of all stains and spills. Kit includes

- Pop-Out
  Designed to aggressively remove water-soluble soils such as soft drinks, coffee, ketchup, red wine and similar stains.
- Enz-Out
  An Enzyme spotter, formulated for the removal of protein stains such as vomit, blood and urine. Ideal for removing ground in food.
- BW Stain Away
  Capable of removing water-soluble stains that require the introduction of an acidic agent.
Call 0208 3934778 for pricing and further information on any products in this catalogue

- Super Solve
  A citrus gel, formulated to remove gum, tar, grease and adhesives from carpeting. The gel keeps the spotter on the surface where the stains are.
- All Purpose Spotter
  A water/solvent micro-emulsion designed to remove a variety of stains.

CFR All Purpose Spotter - 3BZ003

General Purpose Carpet / Fabric Spotter.
A water / solvent micro-emulsion for removal of a variety of spills, which are typically removed only with strong solvents.

Use alone, or as spotter and prespray for the CFR Professional Spotting System
ALL PURPOSE SPOTTER is a water/solvent microemulsion which is highly effective in removing a broad spectrum of both oil and water based stains. It is an extremely effective cleaner for a variety of spills, which are typically removed only with strong solvents.
ALL PURPOSE SPOTTER provides the benefits of solvent based products without the problems typically associated with solvents.

Suitable for use on:
- Carpets: wool, cotton and synthetic fibres
- Upholstery
- Vinyl and tile surfaces

Features:
- Superior grease cutting power
- Leaves less residue than solvent based spotters
- Evaporates quicker than solvent based spotters
- Lower VOCs than solvent spotters
- High solvency for asphalt, inks, oils and greases
- More cost effective than straight solvent
- Ready to use, no dilution needed
CFR Enz Out - 3AD003

An Enzyme spotter formulated for the Removal of protein stains such as vomit, blood and urine. Ideal for removing ground in food.

ENZ-OUT is for use as a spotting agent for a broad spectrum of stains including vomit, blood and other organic stains. ENZ-OUT is a highly active, water based product using a blend of protease and amylase enzymes with an organic and inorganic stabilizing system, blended with compatible cleaning agents. Most organic stains are best cleaned using cold water.

Suitable for use on:
- Carpets: Commercial, residential and automotive
- Upholstery: Commercial, residential and automotive
- Requires a minimum working time of at least 15-30 minutes

Features:
- Equally effective is soft or hard water
- Has good rinse ability
- Leaves fabric with soft, natural feel
- Ready to use as received
- Very effective on a wide variety of organic stains
- Very stable
CFR BW Stain Away - 3AI003

Removes water soluble soils that require the introduction of an acidic agent. Ideal for removal of water stains and alkaline detergent residues.

BW STAIN AWAY is a highly concentrated, water based blend of destaining, debrowning and odour neutralizing compounds.

BW STAIN AWAY is an excellent spotting agent designed to remove water stains and to debrown fabrics.

This product is designed especially for use with CFR Cleaning Systems.

Suitable for use on:
- Carpets: Commercial, residential and automotive
- Upholstery: Commercial, residential and automotive
- Walls and surfaces that are not water and/or acid sensitive

Features:
- Contains no harsh bleaching agents
- Effective on hard to remove tea stains
- Effective on hard water stains
- Effective remover of browning caused by some other cleaning systems
- Equally effective in hard or soft water
- Leaves fabric with soft, natural feel
- Ready to use as received
CFR Pop Out - 3AH003

Designed to aggressively remove water-soluble soils such as soft drinks, coffee, red wine, ketchup, and similar stains.

POP-OUT is a spotting agent designed for removing stains caused by soft drinks, coffee, catsup, and other similar stains. POP-OUT is a highly concentrated, water-based blend of polar solvents, destaining agents, chelating agents and odour neutralizing materials. This product is designed especially for use with CFR Cleaning Systems.

Suitable for use on:
- Carpets: Commercial, residential and automotive
- Upholstery: Commercial, residential and automotive
- Walls and floors that are not water sensitive

Features:
- Effective on many stains
- Equally effective in soft or hard water
- Excellent odour control
- Has good rinse ability
- Leaves fabric with soft, natural feel
- One product handles a large number of stains
- Ready to use as received
CFR Super Solve - 3AC003

A Citrus gel, formulated to aggressively removes water-soluble soils such as heavy grease, tar, inks, toners, shoe polish and chewing gum from solvent-resistant surfaces. The gel keeps the spotter on the surface where the stains are.

SUPER-SOLV is a spotting agent and pre-treatment for the removal of heavy grease, tar, oil type stains, most inks, toners, shoe polish and chewing gum. SUPER-SOLV is an active blend of polar and non-polar solvents with a sophisticated emulsion system that provides for fast soil removal by water. SUPER-SOLV is a non chlorinated, low odour, low toxicity cleaner.

Suitable for use on:
• Carpets: Commercial, residential and automotive
• Upholstery: Commercial, residential and automotive
• Walls and floors that are not solvent-sensitive

Features:
• Good rinse ability
• Penetrates soils very quickly for speedy removal
• Ready to use, no dilution required
• Takes the place of several spotters
• Very effective on a wide variety of solvent soluble stains
CFR Deo Reo 40 - 3AS003

Deodorises and Reodorises surfaces through a concentrated blend of chemical deodorants, odor neutralisers, and pleasantly fragranced re-odorants. Tropical mango scent.
DEO REO 40 is concentrated blends of chemical deodorant, odour neutralizing and masking agents. DEO REO 40 can be used for immediate and long term control of odour by masking and destroying odour sources.

Suitable for use on:
- Fabrics
- Hard surfaces
- Spatial areas (tanks, closets etc.)

Features:
- A small amount of spray after cleaning gives machine tank a pleasant fragrance
- A very small amount goes a long way
- Easy to use, just add to the tank or spray on area to be deodorized
- No phosphates
- Offer a choice of fragrances
- Pleasant fragrance with odour masking agent for immediate effect
- True deodorant, not just masking agent alone, reacts chemically with the odour causing substances to neutralize and/or destroy them
CFR Deo Reo 30 - 3AR003

Deodorises and reodorises surfaces through a concentrated blend of chemical deodorants, odor neutralisers, and floral re-odorants. Fresh air scent. DEO REO 30 is concentrated blends of chemical deodorant, odour neutralizing and masking agents. DEO REO 30 can be used for immediate and long term control of odour by masking and destroying odour sources.

Suitable for use on:
- Fabrics
- Hard surfaces
- Spatial areas (tanks, closets etc.)

DEO REO 30 Features and Benefits:
- A small amount of spray after cleaning gives machine tank a pleasant fragrance
- A very small amount goes a long way
- Easy to use, just add to the tank or spray on area to be deodorized
- No phosphates
- Offer a choice of fragrances
- Pleasant fragrance with odour masking agent for immediate effect
- True deodorant, not just masking agent alone, react chemically with the odour causing substances to neutralize and/or destroy them
CFR Defoam - 3AE003

Controls foam created during the removal of chemical residues from previous cleanings. Designed to float in workstation tank to prevent it from being recycled into the cleaning solution and deposited on fibre.

Defoam is used to provide defoaming action when using the CFR System to remove foam – causing residues from carpets, upholstery and hard surfaces deposited there by prior cleaning with another manufacturer’s cleaning system. Small amounts are very effective when used as directed.

Defoam is a sophisticated, water based, complex defoamer stabilized with a blend of organic couplers, designed for recycling.

Suitable for use on:
- Carpets: Commercial, residential and automotive
- Upholstery: Commercial, residential and automotive
- With any vacuum type cleaning machine having foam problems

Features:
- Does not contribute to early resoiling
- Floats on the surface in the tank for continuous defoaming action
- Long shelf life
- Very cost effective
CFR Shut Out Assist - 3BS003
CFR Shut Out Assist Stain Blocker

In-tank and topically applied anti-stain concentrate. When used in-tank during the cleaning process, it imparts anti-stain properties to each individual fibre. Shut Out Assist is an in-tank additive and topical spray which is especially designed to replace or enhance the built in soil release properties of today’s carpet and upholstery that may have been removed during normal use.

Shut Out Assist will also impart anti-stain and soil release properties to untreated fabrics when used as directed. It is especially effective when used in the CFR Recycling System. When properly applied, fibres will stay cleaner longer, will reduce carpet fibre abrasion and prolong the life and beauty of both carpet and upholstery.

Suitable for use on:
- Wool, cotton and synthetic fibre carpets and upholstery

Features:
- Easy to use, cost effective
- In tank additive, no additional labour required to apply, no excess liquids applied
- As a topical spray only half as much water applied compared to conventional topicals
- Maintenance costs are lowered through reduced time and frequency of cleaning
- Built in soil resistance allows more dry soil to be removed during routine maintenance
- Aesthetic appeal and useful life of the fabric are retained for a substantially longer time
- Allows treated carpets to release more soil during the wet cleaning process
- May also be used on untreated carpets
CFR All Protect - 3BX003
CFR All Protect Anti-Stain Protector

Water based oil and water repellent for all surface protection.
Use on carpets, upholstery, vinyl, leather, wood and painted surfaces.

Features
- All-Protect™ is a water-based product containing a fluorinated acrylic copolymer!
- All-Protect™ is based upon entirely different chemistry than that used in the manufacture of Scotch Guard products!
- Contains no aromatic solvents – safe to use in all environments!
- Cure times are equivalent to solvent-based products!
- Provides excellent water and oil repellency to carpets, upholstery and a variety of surfaces!
- Reinforces/Maintains the protection provided by mill treatments with fluorochemicals!
- Effectiveness is readily demonstrated!
- Facilitates wet and dry soil removal!
- Works on virtually all natural and synthetic fibres!
- Costs as little as pennies per square foot for typical applications!
- Maximum benefit is achieved when ALL-PROTECT™ is applied to clean carpets or fabrics!
Rid a Gum - RAG6
Rid a Gum Chewing Gum Removal System
Rid a Gum Really Works...

A ready to use, liquid chewing gum remover which actually lifts and prepares a gum wad for mechanical removal from carpets, upholstery and fabrics using a Rid a Gum Brush or a scrubbing pad.
Rid a Gum removes gum without sticky residue and does not harm carpet backing. It prevents deeper penetration of chewing gum into most surfaces through its lifting action. Rid a Gum is the most effective gum removal system in our industry today.
Rid a Gum also removes many other stains from Food, Grease and Oily Materials.

Use in:
Schools, Theatres, Airlines, Hospitals, Hotels, Restaurants, Universities, Fleet-Maintenance, Office Buildings and Department Stores.

Use Rid a Gum to safely remove chewing gum from:
- Carpeting
- Fabrics
- Upholstery
- Curtains
- Clothing
- Car Mats
- Entrance Mats
- Also great for removing candle wax
- Available in 6 x 237ml cases complete with 1 Rid a Gum Brush.
Rid a Gum Brush - RAGB

Rid a Gum Hand Brush
Rid-A-Gum brush only to be used in conjunction with Rid-A-Gum Chewing Gum Remover. Sold in single units.

5' Flexible Conversion Hide A Hose C/W Receiver - 72312A

1.5" Conversion Hose with Trigger Assembly 5 Feet
Adapter Hose for use with CFR Hand Tools and Floor Wands.
Suitable for use with all makes of Extractors.
33’ Flexible Hide A Hose C/W Receiver - 72286B

High quality flexible hose with built-in pressure hose complete with trigger assembly which eliminates the need to tie the two hoses together with cable ties. The hide a hose system not only makes cleaning carpets easier, but are also easy to store. Suitable for up to 1,000 psi.

Suitable for use with:
  - CFR Perfect Heat Extractor

33’ Flexible Hide A Hose - WWH33

High quality flexible hide a hose with built in pressure hose which eliminates the need to tie the two hoses together with cable ties. The hide a hose system not only makes cleaning carpets easier, but are also easy to store. Suitable for up to 1,000 psi.
Suitable for use with:
- CFR Perfect Heat Extractor
- Powr-Flite Perfect Heat PFX-1350 Perfect Heat
- And other extractors

25' Crushproof Hide A Hose - 1504WDSI
High quality crush-proof hose with built-in pressure hose which eliminates the need to tie the two hoses together with cable ties. The hide a hose system not only makes cleaning carpets easier, but are also easy to store. Suitable for up to 300 psi.
Suitable for use with:
- All Extraction Machines up to 300 psi

Equinox Floor Polish - 103MP
Equinox Floor Polish
High solids formula for ultra high speed applications. Produces a finish so tough that it significantly reduces the frequency of recoating and burnishing. Provides excellent gloss, scuff resistance and long lasting durability.

Features:
- Hard, durable coating
- Deep wet-look shine
- Reduces labour costs
- Clear, non-yellowing
- Self-sealing
- Classified by UL as to slip resistance only

Recommended Surfaces:
- All resilient tile floors and most types of terrazzo, marble, concrete and quarry tile.

Wood Prime Wood Sealer - 701MP

A wood floor sanding sealer specially formulated to optimise adhesion and protect against tannin bleed.

Features:
- Provides a durable, hard seal
- Protects against tannin bleed
- High clarity, non-yellowing
- Outstanding results when used in conjunction with Woodstar Wood Floor Coating

Recommended Surfaces:
- All commercial wood floors.
Rebound Cleaner/Enhancer - 211MP

Concentrated one step cleaner / enhancer. May be applied by automatic scrubber or damp-mop. Cleans and enhances coating for a brilliant wet-look shine when burnished with UHS burnishers.

Features:
- Exceptionally slip resistant
- Cleaner and gloss enhancer in one
- Concentrated for economical use
- Pleasant lemon-lime fragrance
- Classified by UL as to slip resistance only

Recommended Surfaces:
- All resilient tile floors and most types of terrazzo, marble, concrete and quarry tile and treated wood floors.

Extend Auto Burnish - 201MP
Formulated for mop-on application to revitalize shine. Extends interval between floor coating applications.

Features:
- Reduces overall maintenance costs by reducing the frequency of recoating cycles
- Produces deep wet-look gloss
- Eliminates spray buffing
- Concentrated for economical use
- Maintains slip resistance
- Classified by UL as to slip resistance only

Recommended Floor Surfaces:
- All resilient tile floors and most types of terrazo, marble, concrete and quarry tiles.

Eclipse Heavy Duty Degreaser - 396 MP

A heavy duty degreaser cleaner that rapidly removes the most stubborn greasy soils.

Features:
- Industrial Strength
- Quickly removes grease build-up
- Allows for minimum waiting time
- Effective on most washable surfaces
- Water-based, non-flammable
- Concentrated for economical use
- RECOMMENDED FLOOR SURFACES
- Most washable surfaces
Formula X Gel Stripper - 503A12

A heavy duty, fast acting aerosol baseboard stripper removes floor finish buildup with maximum efficiency.

Features:
- Gel formulation clings to vertical surfaces
- Inverted spray valve makes for easy dispensing
- Contains no chlorinated solvents or ozone depleters

Recommended Floor Surfaces:
- All resilient tile flooring and baseboards, linoleum and most types of terrazzo, marble, and quarry tile.
- Not recommended for asphalt, rubber or asbestos tile flooring.

WoodStar Wood Polish Gloss - 702MP

An internally cross-linked, one component, water borne, commercial wood floor finish.
Call 0208 3934778 for pricing and further information on any products in this catalogue

Features:
- Water borne
- Single pack finish
- Low odour
- Stable, clear film
- Self-crosslinking with thermoset performance
- Classified by UL as to slip resistance only

Recommended Floor Surfaces:
- All commercial wood floors.

WoodStar Wood Polish Satin

An internally cross-linked, one component, water borne, commercial wood floor finish.

Features:
- Rich satin low-gloss finish
- Water borne
- Single pack finish
- Low odour
- Stable, clear film
- Self-crosslinking with thermoset performance

Recommended Floor Surfaces:
- All commercial wood floors.
Wood Prime Wood Sealer - 701MP

A wood floor sanding sealer specially formulated to optimise adhesion and protect against tannin bleed.

Features:
- Provides a durable, hard seal
- Protects against tannin bleed
- High clarity, non-yellowing
- Outstanding results when used in conjunction with Woodstar Wood Floor Coating

Recommended Floor Surfaces:
- All commercial wood floors.
Multideck BMD 450

If you want to scrub, polish, strip or shampoo this machine is the ideal choice. You can choose between 150 RPM 230 RPM or 300 RPM. Maybe you want to use the Multideck for all the above tasks.

This 1000 w Numatic rotary machine comes with a 450mm brush deck as standard, a 450mm nylon Shampoo brush and a BMD Solution Tank. This is the 150 RPM machine and is ideal for carpets. Just call us if you are unsure what the best machine is for your needs.

Whether you are bonnet mopping or floor stripping this Multideck BMD is the answer.

Motorscrubber

The NEW Motorscrubber is a powerful, lightweight, telescopic, ultimate cleaning machine. Designed for safe and reliable use, it is the Ultimate Scrubber which is also capable of washing, polishing, cleaning and even grinding. It quickly and effortlessly cleans your washrooms, showers, stairs, skirting boards, windows, swimming pools, buses, motor vehicles and other hard to clean areas.

The Motorscrubber is a real workhorse running for 4 hours off just 1 charge and only taking 8 hours to be fully re-charged, the high torque motor will refuse to be stalled. Weighing only 1.5 Kg (4 Kg with harness) it is extremely lightweight to use yet extremely heavy-duty in its construction thanks to its American manufacture.

Motorscrubber has been designed to clean all those hard to reach areas where your large cleaning machines simply cannot reach. You have no trailing cable to worry about thanks to its battery operation and this allows it to be 100% submersible in water and cause no shock risk due to its extra low safe voltage.

Motorscrubber has currently been sold into hundreds of hospitals for staircase cleaning where power supply is a problem also for dirty edges down the long corridors and the hard to reach areas in toilets etc.

Hundreds of Schools have purchased motorscrubber for again toilet cleaning and corridor edges but also find it extremely useful for buffing/stripping all hard floors with a coloured floor pad where the large buffers cannot reach. When graffiti on table tops is a problem why use elbow grease when a single pass with motorscrubber will remove it all.
Powr Flite P131

13 Inch Heavy duty floor machine

No other floor machines run like the patented Powr-Flite swing machines. Low-torque transfer design allows the smoothest operation because the workload stays on the floor, not in the operator's hands. These super high performance floor machines do it all! They scrub, strip, spray clean and buff, bonnet clean, shampoo, scrape, grind or sand.

New one piece all metal handle housing, tube and trigger assembly. New safety lock out on handle can be easily accessed. Ultra high output motor with lower amp draw for ultimate power. 1/3 hp high performance motor with 5 year warranty. All steel planetary gear drive with 3 year warranty. 13” pad coverage. Patented rotational molded housing absorbs vibration and controls torque for easy operator control. Fits into those small spaces and allows good maneuverability to get the job done; still has heavy duty features associated with larger machines. 175 RPM.

Powr Flite 17 Inch Heavy duty floor machine - 175 RPM

No other floor machines run like the patented Powr-Flite swing machines. Low-torque transfer design allows the smoothest operation because the workload stays on the floor, not in the operator's hands. These super high performance floor machines do it all! They scrub, strip, spray clean and buff, bonnet clean, shampoo, scrape, grind or sand.

Features:
- New one piece all metal handle housing, tube and trigger assembly
- New safety lock out on handle can be easily accessed
- High polish chrome finish keeps the Classic looking new longer
- Ultra high output motor with lower amp draw for ultimate power
- 1.5 hp high performance motor with 5 year warranty
- All steel planetary gear drive with 3 year warranty
- 17” pad coverage
- Patented rotational moulded housing absorbs vibration and controls torque for easy operator control
- This machine combines the popularity of an all metal floor machine with the most technologically advanced motors, transmissions and electrical components
- You get the craftsmanship of the classic metal floor machine with the dependability of all metal construction and the features for the most challenging floor jobs
- Non-marking bumper protects walls and furniture
- 175 RPM
Black Max 17inch Dual Speed

The best floor machine in the industry just got better! The all new Black Max floor machine is the easiest to use and the most durable floor machine ever produced. Operators will love its low profile design that easily reaches under baseboards and furniture. They will also notice the low vibration, low torque and easy manoeuvrability of its revolutionary design.

The housing design accepts full size 17” pad driver and brush for increased productivity and cleaning ability. The Powr-Flite Black Max floor machine takes cleaning comfort, productivity and durability to the max.

Incorporating all the features of the standard speed BlackMax machines, the Black Max Dual Speed Floor Machine add the advantage of a standard 175 RPM or high 320 RPM speeds for a variety of floor care needs. Dual speed 175 / 320 RPM machines have the power and speed to spray buff and dry polish tile floors providing excellent results.

The 17” Black Max Floor Machine does it all; Scrub, Strip, Spray Clean, Buff, Bonnet Clean, Shampoo, Grinds, Sands and much more!

Features:

- One piece roto-moulded polyethylene housing is virtually indestructable
- Full size 17” pad driver or brush increases productivity
- "No-Riser" design features low centre of gravity for improved control and manoeuvrability
- Torque and Vibration absorbing housing improves operator comfort and reduces fatigue
- Low Profile Design reaches under furniture easily
- 17” Pad Coverage
- 175 RPM / 320 RPM gives you two machines in one
Call 0208 3934778 for pricing and further information on any products in this catalogue

Take a look at the used pad currently on your burnisher. Is the pad worn completely or just partly? The wear on the pad indicates the amount of pad pressure on the floor (if the pad shows only an inch of wear, then you are burnishing only an inch at a time).

With that kind of performance, you have to make more passes on the floor, wasting your time, energy and money. Think of the savings if your pad covered more area. With the M1600, you get Total Pad-to-Floor contact. With each pass you make, the pad covers evenly and completely. No wasted time. No wasted energy. No wasted money.

The designing and engineering of our M1600 burnishers provide superior performance and precision balance without the need for a compensating caster. Not only is this machine more maneuverable, but there is no wheel to prevent the pad from covering the floor.

With the M1600 from The Big Clean Ltd, you can pass the Pad Pressure Test... and shine Flat or Uneven Floors! The M1600, Floor care machine, gives you total Pad-to-Floor contact. With every pass that you make, the pad covers the floor evenly and completely. Saving you time and money...

Specs

Product Specifications:

- Pad Diameter 20 Inches Full Pad-to-Floor Contact
- Motor 1-1/2 hp D.C. Rectified, UL listed
- Transmission Direct Drive, No Slip Deep 'V' Belt Drive
- Base Housing One piece, high density polyethylene
- Pad Driver Factory installed rigid block drive
- Pad Pressure 7 Kg
- Operating Wheels 5 inch non-marking self-lubricating
- Transport Wheels 4 inch non-marking self-lubricating
- Operation Controls Dual lever on-off safety switch, stress absorbing. Left or right hand.
- Warranty 10 yrs housing, 2 yrs motor, 1 yr on parts & workmanship
- Work Rating (ft2 / hr) 23,500
- Shipping Weight 40 Kg
- Pad Speed 1600 RPM
Victor Lynx 17 inch Rotary Machine

The Lynx range of burnishers offer sleek styling and powerful performance to clean and produce a high shine on any polished floor.

Available in two sizes 450 or 500 mm cleaning widths and operating in a straight line the Lynx is easy to use even for a novice.

The dust control skirt can be raised for effective spray cleaning or lowered catch dust from burnishing. The silent passive dust collection system picks up all dust created from the burnishing process and channels it into a bag located at the front of the machine for removal. Where active vacuumation is preferred the Lynx can now be fitted with an exhauster unit.

For areas where spray cleaning is not an option there is a solution dispenser located on the machine that feeds cleaning solution directly onto the pad and floor without dispersing it into the air.

Victor Sprite 300 Rotary machine

The Sprite 300 offers ultimate cleaning performance and versatility in a convenient size for use where conventional machines are too large.

The Sprite 300 is one of the most versatile machines on the market today, the compact size and low profile allows it to be used in the tightest of areas.

The Sprite 300 operates at our standard speed (240 rpm) to give the operator the opportunity to carry out a number of cleaning tasks on both hard floors and carpets.

As you would expect from such a versatile machine, a full range of accessories is available for the Sprite 300. These include tanks and a variety of brushes, polypropylene for scrubbing, gumati brushes for polishing and shampoo brushes for carpets.

The fold over handle allows the machine to be stored in the smallest of cleaning cupboards, and the brush hook on the rear of the handle provides convenient storage for either a brush or drive board.
The Loline range of low profile floorcare machines delivers all the performance of larger rotary machines whilst being lighter, quicker and easier to use, and compact and convenient to store.

The new Loline rotaries have been designed specifically to raise the handling and performance levels of rotary to an exceptional user friendly standard whether used by men or women this new range will make rotary cleaning a breeze.

The smallest model in the Loline range can claim performance characteristics equal to that of bigger, more industrial machines, yet with an ease and speed of operation that will immediately endear it to any operator.

A full range of 330mm (13”) brushes and pad drives allows the machine to be used for all of the primary floorcare functions.

With a total weight of only 18Kg and an operating speed of 200rpm the machine literally exudes convenience and versatility. Fast and user friendly like never before.

**Product specifications:**
- Motor 400W
- Deck Size 330 mm
- Brush 330 mm
- Pad Size 330 mm
- Power 230V AC 50Hz
- Speed 200rpm
- Range 32 m
- Weight 18 kg
- Size 1145 x 330 x 540mm

**Floormachines - Loline - NLL415**
The Loline rotary cleaning machines from Numatic put truly useable power in the hands of the operator, and make it possible to deliver excellent standards of cleanliness. Numatic rotary machines such as the Loline NLL-415 also deliver this industrial standard of cleaning in a far smaller more convenient package than normally associated with rotary machines.

The Loline 415 model embodies all of the many unique features of the 332 but is suitable for a range of larger 400mm (16”) brushes and 360mm (14”) floor pads.

The NLL-415 runs at an impressive operating speed of 150rpm meaning it can be used like a true work horse to meet a whole swathe of maintenance needs such as polishing, scrubbing or cleaning.

Numatic has made the entire range of the Loline rotaries exceptionally easy to use and the NLL-415 is no exception, and even more so where extended operating hours are part of the daily routine. The solution tank system allows for easy use and compact storage, whilst its unique universal filling system adds further to operator convenience.

**Product specifications:**
The Woodworker Airo System offers a complete package for revitalising and maintaining wooden floor surfaces. The package includes the BMD1000S/450 floor machine, Dustrol 130 vacuum system, AiroDisc 400 drive board, plus additional add-on 10kg weight.

Use in conjunction with the Airo Starter Pack – additional packs of Airo pads & discs are available as required.

**Product specifications:**

- Power 230V AC 50/60Hz
- Motor Power 1000 W
- Deck Size 400 mm
- Brush 400 mm
- Speed 150 rpm
- Vacuum NDT130
- Cleaning Range 32 m
- Weight 32 kg
- Size 1185x580x450mm
Powr-Zone Ozone Generator - PFPZ-2+
Powr-Zone Ozone Generator

Don't just cover up odours destroy the molecules that cause them with the Powr-Zone Ozone Generator. Powr-Zone actually eliminates odors and leaves pure, fresh oxygen in its place. This economical unit is ideal for commercial use. It is excellent for smoke damage, mold, mildew, pet odor and other odors commonly found in building maintenance and refurbishing. The Powr-Zone Ozone Generator may be used in any indoor location including basements, kitchens, bathrooms and more. It also provides rapid deodorizing for hotel rooms, meeting rooms, automobiles and boats.

Most people have heard of ozone in the context of the ozone layer - the layer of our atmosphere that protects us from the sun's harmful UV rays. Ozone (O₃, a gas composed of three oxygen atoms) is naturally generated when atmospheric oxygen rises to the stratosphere, and is exposed to the sun's ultraviolet rays. Ozone has been shown by extensive laboratory trials to be effective at reducing bacteria and odour when used at levels no higher than 0.05ppm. These levels are considered safe to breathe 24 hours per day. Tests have also shown that at these levels there is no harmful effect on plants. By accurately controlling the amount of ozone generated it can be used safely and effectively to destroy unpleasant odours and control bacteria.

Ozone is a chemically reactive gas. This simply means that it 'attacks' other chemicals. Ozone kills any bacteria, viruses and other organic matter it comes into contact with by rupturing its cell walls. This occurs when the extra oxygen atom breaks free, destroying the offending organism through oxidation. The very nature of Ozone’s killing action means that contaminants are incapable of developing a resistance to it over time.

Although Ozone is very powerful, it has a very short life cycle, so when the extra atom breaks free and Oxidisation occurs – Ozone (O₃) automatically reverts back to Oxygen (O₂).

Ozone Sanitisation
Ozone’s sterilising properties have been utilised for many years in the water industry, and more recently in the laundry sector for the decontamination of Ozone Sanitation — The future of cleaning? fabrics. New pioneering technology has now enabled the safe utilisation of Ozone in gaseous form as a sanitising agent, opening up a world of possibilities for an innovative new approach to sanitisation.

By raising indoor atmospheric Ozone concentration, it is possible to completely sanitise any given area, as the additional Oxygen atom in the generated Ozone oxidises and will eventually kill all of the following:
Odours, Bacteria, Viruses, Allergens, Mould – Fungus, Insect infestations

Sanitisation Process
Once the equipment is set up the operator leaves the area and starts the sanitisation process remotely. The Ozone diffuses into the area and engulfs all exposed surfaces and penetrates hidden areas and fabric items. The Ozone rich atmosphere is sustained for a short period of time, typically one hour, during which time all bacteria and other unwanted elements are destroyed. When the sanitisation process is complete, Ozone reverts back into Oxygen.

Is Ozone sanitisation safe?
The simple answer is yes – when performed by a trained operator, Ozone sanitisation is completely safe. The sanitisation process requires that the area for treatment is unoccupied and any potential leakage points are identified and adequately sealed. It is completely safe to use Ozone in an unoccupied sealed area, as long as you wait until the ozone changes back to Oxygen prior to reoccupation. Ozone will naturally revert back to Oxygen once the sanitisation process is completed. Therefore while high levels of Ozone are toxic, within a short time all of the Ozone will have literally disappeared. The sanitisation process leaves behind no chemical residue, just fresh clean air! When compared to chemical germicides, pesticides, bactericides, fungicides or even simple air fresheners – Ozone is a much cleaner, safer option.

How long does Ozone remain in an area after it as stopped being generated?
As soon as Ozone is generated and dispersed in a room it begins to change back into Oxygen. This occurs automatically due to Ozone’s natural chemical instability. Ozone has a very short half life, which means that it will revert to Oxygen within a short timescale, in amounts equal to half its level. The exact timing is highly dependant upon a number of factors, but is especially affected by temperature (the higher the temperature the faster Ozone decomposes to Oxygen). The natural reversion process is accelerated further by the presence of any contaminants, pests, allergens and even by general items within a room (furniture, fabrics etc), as the Oxidation reaction consumes the extra atom within Ozone. The level of ozone is dependant upon the size of the room, the output of the generator, the number of reaction surfaces, the number of air changes and the contaminant load. At high concentrations Ozone has a sharp smell similar to bleach that tingles the nose. This tells you immediately that the level is too high and likely to be above the occupational exposure limit. At lower levels it has a slightly metallic odour. At this level you are above the natural occurring levels but likely to be below the occupational exposure limit. Ozone at 0.05 and below has a fresh open air smell. In many cases, Ozone’s ability to naturally degrade means that it can be utilised safely and efficiently as a sanitising or odour remediating agent without any further measures being employed. This is possible wherever time is not a constraint, and the area being treated can be safely left unoccupied with no risk of people inadvertently entering the area.

Can Ozone reduce allergens?
An allergen is a substance that causes an allergic reaction. The majority of indoor allergens contain a protein - that is, the part of a living organism that includes hydrogen, oxygen and nitrogen. From our perspective this is very important, as this protein (and hence the allergen) can be destroyed by Ozone oxidation. Indoor air quality is often as much as 20 times more polluted than the air outside. Common indoor allergens are dust mites, mould spores, pet dander, pollen, and tobacco smoke. The prevalence of these allergens in indoor environments has increased dramatically in western society due to advances in the way we build and insulate our properties. With our advanced equipment, it is possible to eliminate any protein based allergen that comes into contact with Ozone. When used at scheduled regular intervals, Ozone sanitisation can allay the accumulation of allergens in any indoor
environment - providing a significant improvement to the quality of life of those affected by indoor allergies.

Valet Aqua 55 - VA55HD

Valet Aqua 55 Litre Heavy Duty Wet / Dry Vacuum Cleaner
Our new wet / dry pick-ups / vacuum models have the capacity and power for large water recovery jobs or dry debris pick-up in the shop or on the job site. They are perfect for hard floor maintenance jobs, recovering floor strippers and hard floor cleans easily. The swivel hose connector allows 360 degree hose rotation, letting you move the vacuum without fear of disconnection. These wet / dry vacuum cleaners feature a two stage filtration process with a washable permanent cloth filter bag that keeps dust from circulating back into the air and a super performance pleated paper cartridge filter for more efficient general application filtration.

Features:
55 litre wet / dry pick-up designed for heavy-duty commercial use
Simple and easy to use
Helps maintain safer working environments
Avoid slip hazards by removing spillages
Polyethylene tank for durability
Push handle and front castors for easy manoeuvrability
Rear drain hose for easy emptying
Supplied with a full set of tools
Sound insulated vacuum head unit
Optional fixed front squeegee for high productive cleaning in large open areas

Production Specification:
Model Number: VA55HD
Tank: Polyethylene
Motor: 1200 Watts
CFM: 114
Waterlift: 100 inches
Capacity: 56.8 Litres
Filter: Paper-pleated, cloth washable
Airflow: 54L / sec
Vacuum: 24.9 kPa
Hose Length: 1.5 inches x 3m
Cable Length: 8m
Wheels: 2-8" non-scruff rear, 2-3" swivel castors
Noise Level: 85 db(A)
Weight: 15kg
Width x Depth x Height: 39cm x 50cm x 92cm

Valet Aqua 55 Industrial - VA55IND
Valet Aqua 55 Litre Industrial Wet / Dry Vacuum Cleaner
Industrial wet and dry vacuum cleaner with robust construction.

Features:

- 18 gauge stainless steel tank for long lasting durability
- Double trolley with push handle for easy manoeuvrability
- Perfect for hard floor maintenance jobs; recovering floor strippers and hard floor cleaner
- Has the capacity and power for large water recovery jobs or dry debris pickup
- Swivel hose connector allows 360 degree hose rotation, letting you move the vacuum without fear of disconnection
- Tank hinges on frame for easy "tip and pour" emptying
- Supplied with a full set of tools
- 1.6 hp, 1200 watt heavy-duty commercial vacuum motor with 114 CFM and 100" waterlift for the toughest jobs
- Sound insulated vacuum head unit for quiet operation
- Comes complete with tools: 14" carpet and squeegee tools, plus, crevice and dusting tools
StripVac - SV3034E
StripVac Stripper Recovery Vacuum
The Pioneer Eclipse StripVac makes pick-up of stripper solution a breeze. Easy to operate and not restricted by the use of electric cords.

Features:

Battery powered (24V), up to 6 hours of uninterrupted use
Tank Capacity: 30 gallon / 110 litres
Performance: 10,700 ft 2/hr - includes emptying of StripVac
Available with 34" (86cm) break-away squeegee. Adjusts for perfect pick-up and utilises all blade surfaces for extended life
Vac Motor Water Lift: 67.2" / 170.7cm
Durable construction with virtually indestructable rotationally molded polyethylene tank
Optional vacuum wand attachment offers easy access into corners, under fixtures and other hard to reach areas

PRODUCT SPECIFICATIONS:

Coverage: Approximately 1,000 square metres per hour
Runtime: 6 hours between charges
Height x Width x Length: 44" (112cm) x 26" (66cm) x 39" (99cm)
Squeegee Length: 26" (66cm) or 34" (86cm)
Weight: 102kg with batteries, 59kg without
Tank Capacity: 114 litres
Batteries: 2 x 12V
Battery Compartment: 16.3" (41.4cm) x 12.8" (32.5cm) x 10.0" (25.4cm)
Battery Dimensions: 8.1" (20.7cm) x 6.6" (16.8cm) x 12.0" (30.5cm)
Overall Sound Level: Approx. 74db(A)
17” Light Cleaning Floor Pad

Designed specifically for daily light wet cleaning. Used with solution of Neutral Cleaner or Rebound Cleaner/ Maintainer, this pad removes top soiling and embedded dirt without removing the finish. Use also with our automatic scrubber/dryer maintainers.

17” Deep Scrub Floor Pad, Blue

Dense, durable, deep scrub pad removes scuffs, black marks and embedded soil prior to recoating. Its special design removes just the right amount of dirt and soil without removing the entire base. Excellent durability. Product number: PD004017
17" Black Strip Floor Pad, Black

Designed for complete coating and sealer removal. This aggressive strip pad is uniformly coated with a long lasting abrasive which is chemical resistant to stripper solutions.

17" Blue Blend Burnishing Pad

Daily buff pad removes scuffs, scratches and burnishes to a wet-look appearance especially on harder coatings. Very long lasting, even under extreme propane burnishing conditions.
17" White Lightning Floor Pad

Special polishing agents allow this pad to burnish brilliantly. Its fine denier construction is gentle on softer coatings and will not leave hazing or streaking in the coating. Works excellent as a curing pad on fresh coating.

20" White Lightning Burnishing Pad

Special polishing agents allow this pad to burnish brilliantly. Its fine denier construction is gentle on softer coatings and will not leave hazing or streaking in the coating. Works excellent as a curing pad on fresh coating.
20” Blue Blend Burnishing Pad

Daily buff pad removes scuffs, scratches and burnishes to a wet-look appearance especially on harder coatings.
Very long lasting, even under extreme propane burnishing conditions.

21” Blue Blend Burnishing Pad

Daily buff pad removes scuffs, scratches and burnishes to a wet-look appearance especially on harder coatings.
Very long lasting, even under extreme propane burnishing conditions.
21" White Lightining Burnishing Pad

Special polishing agents allow this pad to burnish brilliantly. Its fine denier construction is gentle on softer coatings and will not leave hazing or streaking in the coating. Works excellent as a curing pad on fresh coating.

21" Natural Blend Burnishing Pad

Our Natural Blend formula combines the right amount of heat and friction with fiber content to smooth away scuffs and deep scratches for a brilliant wet-look shine.
17” Nylon Shower Feed Brush - SF615
TUFF-BLOCK® Showerfeed
FEATURES:
For cleaning hard surfaces.
Nylon scrubbing brush feature .028” diameter fill material throughout the block. Nylon is more flexible and will last longer than polypropylene.
Replaces red and blue pads.
Fits 17” floor machines.

17” Nylon Shower Feed Carpet Brush - SF115
TUFF-BLOCK® Showerfeed Brush

17” Nylon Showerfeed Brush, 0.22 fill
Best quality carpet brush, nylon is flexible enough to gently scrub yet retains its "memory" for long term
Grooved and channelled for even solution distribution
5” center hole 1” plastic block with 1-3/4” bristles with 0.22 fill
Fits 17” floor machines.
17" Shower Feed Carpet Brush - SF215+
Shower Feed Carpet Brush
An economical alternative to nylon. The bristles are slightly stiffer than nylon. 5" centrehole, plastic block. 1" plastic block with 1-34" bristles with 0.20 fill.

Economical alternative to nylon
Bristles are slightly stiffer than nylon
5" centre hole, plastic block
1" plastic block with 1-34" bristles with 0.20 fill
Clutch plate is included

17" Tufted Pad Driver Z1
PAD-LOK™

Heavy polypropylene strands trimmed irregular at 3/4" are staple set in our TUFF-BLOCK®, making this the superior tufted pad driver choice.
Tufts penetrate into the pad for secure holding power.
Includes our 1-1/4" thick plastic riser.
19" Tuffed Pad Driver - 919DP
PAD-LOK™
FEATURES:
Heavy polypropylene strands trimmed irregular at 3/4" are staple set in our TUFF-BLOCK®, making this the superior tufted pad driver choice. Tufts penetrate into the pad for secure holding power. Includes our 1-1/4" thick plastic riser.

17" Tufted Pad Driver - 717DP
PAD-LOK™
Heavy polypropylene strands trimmed irregular at 3/4" are staple set in our TUFF-BLOCK®, making this the superior tufted pad driver choice. Tufts penetrate into the pad for secure holding power. Includes our 1-1/4" thick plastic riser.
17" MAL-GRIT LITE™ Brush For Z1

MAL-GRIT™ brushes offer solutions to a wide range of cleaning situations. Silicone carbide impregnated nylon bristles are self-replenishing as brush wears, offering unmatched value that outlasts floor pads over 100 to 1! That translates directly into time and cost savings. Featuring our water and chemical resistant TUFF-BLOCK® for maximum life expectancy. All Grit Brushes must be run in a wet environment.

MAL-GRIT LITE™

Offers the durability of grit brushes with minimum aggression. For daily scrubbing of a variety of tiles, marble, terrazzo and non-slip epoxy finishes.

17" MAL-GRIT™ Medium Brush For Z1

MAL-GRIT™ brushes offer solutions to a wide range of cleaning situations. Silicone carbide impregnated nylon bristles are self-replenishing as brush wears, offering unmatched value that outlasts floor pads over 100 to 1! That translates directly into time and cost savings. Featuring our water and chemical resistant TUFF-BLOCK® for maximum life expectancy. All Grit Brushes must be run in a wet environment.

MAL-GRIT™

Our most popular grit brush. An aggressive brush for general scrubbing or stripping finishes from hard surfaces. Effectively cleans wide grout lines.
17" MAL-GRIT XTRA™ Brush for Z1

MAL-GRIT™ brushes offer solutions to a wide range of cleaning situations. Silicone carbide impregnated nylon bristles are self-replenishing as brush wears, offering unmatched value that outlasts floor pads over 100 to 1! That translates directly into time and cost savings. Featuring our water and chemical resistant TUFF-BLOCK® for maximum life expectancy. All Grit Brushes must be run in a wet environment.

MAL-GRIT XTRA™
The most aggressive grit available. This heavy gauge nylon with larger grit is used for stripping heavily soiled floors, such as concrete floors, in an industrial setting.

T - Bar Applicator 18"
18" Heavy-weight T-bar applicator

The industry standard for wood floor finish and stain applications. Evenly weighted applicators provide consistent finish. Unique cushioned squeegee action leaves a smooth streak and bubble-free finish. Supplied complete with handle (Handle not shown).
T - Bar Refill Cover 18"
18" nylon foam refill, Fits T-bar applicator

The industry standard for wood floor finish and stain applications. Evenly weighted applicators provide consistent finish. Unique cushioned squeegee action leaves a smooth streak and bubble-free finish.

17" Silicon Carbide Wood Sanding Screen 60 Grit
Silicon Carbide Wood Floor Screen

Silicon Carbide Sanding Screen is extremely cost effective
Offers outstanding combination of performance and value
Used for sanding and removal of old and warn floor sealers and polishes
Used for blending sanding marks and scratches
Used to abrade between WoodPrime Sealer coats
Always use a 17” white floor pad to prevent screen slippage and to maximize performance
17” Silicon Carbide Wood Sanding Screen 80 Grit
Silicon Carbide Wood Floor Screen

Silicon Carbide Sanding Screen is extremely cost effective
Offers outstanding combination of performance and value
Used for sanding and removal of old and warn floor sealers and polishes
Used for blending sanding marks and scratches
Used to abrade between WoodPrime Sealer coats
Always use a 17” white floor pad to prevent screen slippage and to maximize performance

17” Silicon Carbide Wood Sanding Screen 100 Grit
Silicon Carbide Wood Floor Screen

Silicon Carbide Sanding Screen is extremely cost effective
Offers outstanding combination of performance and value
Used for sanding and removal of old and warn floor sealers and polishes
Used for blending sanding marks and scratches
Used to abrade between WoodPrime Sealer coats
Always use a 17” white floor pad to prevent screen slippage and to maximize performance
17” Silicon Carbide Wood Sanding Screen 120 Grit
Silicon Carbide Wood Floor Screen

Silicon Carbide Sanding Screen is extremely cost effective
Offers outstanding combination of performance and value
Used for sanding and removal of old and warn floor sealers and polishes
Used for blending sanding marks and scratches
Used to abrade between WoodPrime Sealer coats
Always use a 17” white floor pad to prevent screen slippage and to maximize performance

17” Silicon Carbide Wood Sanding Screen 180 Grit
Silicon Carbide Wood Floor Screen

Silicon Carbide Sanding Screen is extremely cost effective
Offers outstanding combination of performance and value
Used for sanding and removal of old and warn floor sealers and polishes
Used for blending sanding marks and scratches
Used to abrade between WoodPrime Sealer coats
Always use a 17” white floor pad to prevent screen slippage and to maximize performance
17” Silicon Carbide Wood Sanding Screen 220 Grit
Silicon Carbide Wood Floor Screen

Silicon Carbide Sanding Screen is extremely cost effective
Offers outstanding combination of performance and value
Used for sanding and removal of old and warn floor sealers and polishes
Used for blending sanding marks and scratches
Used to abrade between WoodPrime Sealer coats
Always use a 17” white floor pad to prevent screen slippage and to maximize performance

17” Soil-Sorb Bonnet - F106P

Soil-Sorb bonnets provide a limited moisture method of removing soil on all types of carpet. They are excellent for renewing traffic lanes or for large area spotting. Soil-Sorb carpet bonnets are quick, economical and effective.
This reversible bonnet contains high-profile loops of cotton / synthetic yarn, excellent for reducing carpet drying time.
Non-aggressive looped yarn ends work with any carpet style.

Designed for medium to heavy soil conditions
Aggressively loosens and traps soil
Call 0208 3934778 for pricing and further information on any products in this catalogue

Made from specifically blended, first grade yarn  
Strong, highly absorbent - actually picks up and holds dirt  
Washable - can be used over and over again  
Use with any nylon bristle pad driver

17” Powr-Sorb Bonnet - F93P

Powr-Sorb bonnets provide a limited moisture method of removing soil on all types of carpet. They are excellent for renewing traffic lanes or for large area spotting. Powr-Sorb bonnets are quick, economical and effective.  
This reversible bonnet contains high-profile loops of cotton / synthetic yarn, excellent for reducing carpet drying time.  
Non-aggressive looped yarn ends work with any carpet style.

50% polyester / 50% rayon. Pre-laundered and dried to set the yarn, prevents shrinking or linting  
Made from specially blended, first grade yarn  
Strong, highly absorbent - actually picks up and holds dirt  
Washable - can be used over and over again  
Use with any nylon bristle pad driver
Dirt Napper Bonnet - DNR15

Bonnet designed for use with the Dirt Napper Drive Board. Carpet cleaning system consisting of a polyester brush and a bonnet for fast, effective cleaning. Recommended for large volume carpet cleaning with machine mounted solution spray bottlers or solution tanks.

Dirt Napper Bonnet / Brush Holder - DN17

Carpet cleaning system consisting of a polyester brush and a bonnet for fast, effective cleaning. Recommended for fast volume carpet cleaning with machine mounted solution spray bottlers or solution tanks.

Outside rows of 1-1/4" trim bristles scrub carpet
Inside rows of 5/16" trim bristles hold absorbent looped bonnet in place
Polyester synthetic bristles will not absorb water
Plastic block will not soften, warp or crack
All dirt napper brushes come with one bonnet
Clutch plate is included
Shower Feed Carpet Brush - SF215+ Medium
An economical alternative to nylon. The bristles are slightly stiffer than nylon. 5" centre hole, plastic block. 1" plastic block with 1-3/4" bristles with 0.20 fill.

Economical alternative to nylon
Bristles are slightly stiffer than nylon
5” centre hole, plastic block
1” plastic block with 1-3/4” bristles with 0.20 fill
Clutch plate is included
Powr-Riser Showerfeed Brush, .025 fill - SF515

Carpet shampooing is now faster and more efficient than ever before! The Powr-Riser adjustable showerfeed brush has a glider in the centre that carries the weight of the floor machine, allowing the full bristle to clean. No more flattened brushes.

Polyester synthetic fibers won’t get soft because they don’t absorb water
Unique glide adjust in 1/8” height increments for any carpet nap height
Full weight of the floor machine is on the glider, greatly extending the brush life
5” centre hole
Clutch plate is included

Numatic Twintec TTB6652T Scrubber Drier

The Twintec TTB6652T - Traction exudes a wealth of new and improved technology; offering exceptional handling and operational standards. Having a low level stainless-steel chassis, 200Ahr 24V power supply with its own fully integrated charging system and a series of powerful drive and suction motors, an operating time of up to 3.5 hours is possible from a single 8 hour charge.

With the user in full control of the operating speeds in both forward and reverse, the machine can be individually programmed to suit a whole range of environments.
The new 6652 traction machine is truly a careful balance of existing design criteria and a wealth of new and improved technology, all designed to produce handling and operational standards second to none.

The low level, stainless steel chassis provides a sound foundation for a choice of 100Ahr or 200Ahr 24V power supply with their own fully integrated charging system. This is complimented throughout by a powerful series of drive and suction motors providing up to 3.5 hrs of robust operation from a single 8 hour charge.

With the user in full control of the operating speeds in both forward and reverse directions, the machine can be individually programmed to suit a whole range of environments to ensure optimum results.
Call 0208 3934778 for pricing and further information on any products in this catalogue
Twintec Vario

The Twintec Vario pictured above is just about the most user friendly and versatile scrubber drier on the market today. The standout feature that makes the Twintec Vario so user friendly and versatile is its ability to work at different widths it can change from 650mm wide to 750mm or even 850mm in under 30 seconds. As Numatic say 3 really does go into 1!

Sit on scrubber driers are usually used on large floor spaces, however such areas may contain nooks and crannies or lead into corridors that require a smaller, perhaps non sit on scrubber, well not anymore! Just adjust the brush size and carry on regardless, furthermore the cleaning speed, brush speed, water flow and chemical mix are all completely adjustable so you have total control of the finish you achieve. Trying to preselect the specification of a particular floor can be tricky however with the Twintec Vario you can now adjust every setting on the move.

To enhance the adjustability of the Twintec Vario a series of user programmable presets have been included, meaning that once you have decided on the optimal settings for a particular floor surface you can save them for later use. In addition to the extreme versatility of performance, there is a selection of brush and pad specifications to suit different needs and additional battery packs to extend the cleaning range as required.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 3 x 24V 400W
- Vacuum Motor Power 24V 400W
- Power 6 x 12V (24V) = 300A/H
- Run Time 3.5 Hrs
- Traction Drive 600W
- Transit Speed 7.0km/h
- Cleaning Speed 3.5 km/h
- Climbing Gradient 11°
- Scrub Width 650 mm, 750 mm, 850 mm
- Brush Speed 50/100/150/200 rpm
Call 0208 3934778 for pricing and further information on any products in this catalogue

- Water Capacity 120 L
- Nuchem Capacity Optional 4 L
- Water Flow Rate 4L/min, 3L/min, 2L/min, 1L/min
- Nuchem Mix 25:1, 50:1, 75:1, 100:1
- Weight 500 kg
- Size 1676 x 1425 x 1054 mm

TTQ-1535S Cable

As many professional floor cleaners will tell you big isn’t necessarily better and sometimes small is beautiful, well that was Numatic’s moto when they designed the TTQ-1535S. Due to its relatively small size the TTQ-1535S is hugely navigable making it easy to manage when in use, while over sized transit wheels make it easy to transport between jobs.

The cylinder power brush ensures deep cleaning performance whilst the twin water pickup nozzles either side of the brush roll permit multidirectional operation which is vitally important when cleaning the narrow walkways often found in shops and food stores. With the TTQ-1535S you can walk in forwards and reverse out backwards without turning and without loss of scrubbing and drying performance.

The swing steering system provides another simple innovation that really does improve the versatility of the machine allowing full operator directional control.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 400W
- Vacuum Motor Power 1000W
- Brush 350mm
- Speed 50Hz=1000prm 60Hz=1200 rpm
- Capacity 15 L
- Cleaning Range 42 m
- Weight 38 kg
- Size 750x740x480mm
TT3450T Cable

The TT-3450T is perhaps the first really practical, easy to use combination machine built on a full stainless steel chassis, a format that is set to revolutionize the way you think about cost effective hard floor cleaning.

This machine is so easy to use, fill, empty, move, transport and service that you won’t know how you managed in the past. The motor and power transmission are both oversized and are complimented by Numatics incredibly high performance Twinflo’ vacuum collection system and full floating polyurethane semi-parabolic floor nozzle.

Add to these superb specs a 30-litre capacity and a choice of single or twin 15-litre dirty water tanks, with a heavy duty 450mm scrubbing head (400mm with pads) and you will be left with clean and dry floors even in the most arduous of applications.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 1000W
- Vacuum Motor Power 1200W
- Diameter 450mm
- Speed 50Hz=150rpm 60Hz=180rpm
- Capacity 30L
- Cleaning Range 42m
- Weight 57kg
- Size 1150x1030x740m
Many cleaning situations require the ability to navigate tight spaces such as working in corridors or around the display units in a shop. There is only really one way to achieve this; to go in forwards and to back out of the space the way you entered.

Our new compact cylindrical cleaner is ideal for these situations and due to its integrated front end dual suction nozzles, it achieves effective cleaning and water pickup wall to wall. Many smaller machines, just do not have adequate capacity to clean a large area on a single tank.

To deal with larger areas such as the ever expanding floor spaces found in the retail sector we have added this model to our range with a 30 litre capacity tank but based the chassis on our compact 350mm cylinder.

The TT-3035 has been developed on our tried and tested mains-operation design; providing easy operation, high performance and 100% reliability.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 400 W
- Vacuum Motor Power 1000 W
- Power 230V/AC 50Hz 230V/AC 60Hz
- Speed 50Hz = 1000 rpm 60Hz = 1200 rpm
- Capacity 30 L
- Range 42 m
- Weight 40 kg
- Size 750 x 740 x 480 mm
TT-3450S

Built on a full stainless steel chassis the TT-3450s is the first really practical easy to use combination machine and is set to revolutionise the whole way you think about hard floor cleaning.

The TT-3450S is easy to use, easy to fill, easy to empty, easy to move, easy to transport and easy to service. So as you can imagine it’s pretty easy!!

Numatic have oversized the motor and power transmission and complimented them with their high performance Twinflo’ vacuum collection system and full floating polyurethane semi-parabolic floor nozzle.

Full 30-litre capacity with a choice of single or twin 15-litre dirty water tanks, with a heavy duty 450mm scrubbing head (400mm with pads) which will leave you with clean and dry floors even in the most arduous of applications.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 1000 W
- Vacuum Motor Power 1200 W
- Diameter 450 mm
- Speed 50Hz=150rpm
  60Hz=180rpm
- Capacity 30 L
- Cleaning Range 42 m
- Weight 57 kg
- Size 1150x1030x740mm
TT-4550S

Often as the area to clean becomes larger the time constraints become tighter and it is at this point that you need two things; firstly a touch of innovation and secondly an exceptional machine.

Well luckily Numatic have just the machine for you with plenty of surplus power available within the standard motor and transmission design numatic have been able to enlarge the brush size and increase the operating efficiency whilst still maintaining a machine that is exceptionally easy to use.

Increases include Water capacity up by 33% and the cleaning path by 20% over the 3450 size machines and yet to use the TT-4550 you would never know you were using a larger machine.

The TT-4550 has all the practical features of the smaller machines with its full stainless steel chassis, heavy duty motor and gearbox, powerful Twinflo’ suction system, polyform water tanks, efficient semi-parabolic, polyurethane collection system and fully adjustable operating handle and control centre. But the increased capacity and larger cleaning surface are all new giving you the benefit of both the large and small machines all in one package.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 1000 W
- Vacuum Motor Power 1200 W
- Diameter 550 mm
- Speed 50Hz=150rpm 60Hz=180rpm
- Capacity 40L
- Cleaning Range 26.8 m
- Weight 68 kg
- Size 1150x1110x850mm
TT-6650S

The TT-6650S is a day in day out workhouse for large hardfloor cleaning and provides a truly cost effective answer to big area maintenance.

Numatic pride themselves on the fact that this larger machine is as easy to use as its smaller cousins and with good reason. The user will find that the TT-6650S has exactly the same control and operation system as the smaller machines and therefore it handles like a dream.

Large capacity polyform tanks provide an enormous 60-litre capacity that complements the extremely reliable and stable 650mm single brush scrubbing head which is fully utilised by an oversized floating 970mm polyurethane, semi-parabolic collection nozzle.

The motor and transmission found in the TT-6650S is one of Numatic’s very best and is coupled to the legendary Twinflo bypass vacuum motor system. With the TT-6650S there is no doubt that you really will end up with clean, dry floors.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

**Product specifications:**

- Brush Motor Power 1200 W
- Vacuum Motor Power 1200 W
- Diameter 650 mm
- Speed 50Hz=150rpm 60Hz=180 rpm
- Capacity 60 L
- Cleaning Range 42 m
- Weight 86 kg
- Size 1230x1260x970mm
TTB-3450CRS (Battery)

Numatic’s popular 3450 model with its 30L capacity and 450mm (18”) scrubbing width is now available as a cylinder version called the TTB-3450CRS and comes in both cable and battery models. The cylinder version allows you to walk in forwards and back out without the need for turning and without the loss of operating performance.

With good capacity and a 2.25 hour running time for the battery model, the 3450 cylinder is ideal for retail and other environments suffering from restricted movement space.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

TTB-3450S

The Twintec battery system from Numatic introduces 24V freedom to hard floor care by fitting the excellent 3450S with a battery system to give you hours of wire free cleaning.

The TTB-3450S is easy to use, easy to fill, easy to empty, easy to move, easy to transport and easy to service. So as you can imagine it’s pretty easy!!

Numatic have oversized the motor and power transmission and complimented them with their high performance Twinflo’ vacuum collection system and full floating polyurethane semi-parabolic floor nozzle.

The TTB-3450S is bristling with unique features to which Numatic have added their all new ABP system, this unique patented Adjustable Brush Pressure system allows power head performance to be varied to suit different floor conditions and requirements.

Full 30-litre capacity with a choice of single or twin 15-litre dirty water tanks, with a heavy duty 450mm scrubbing head (400mm with pads) which will leave you with clean and dry floors even in the most arduous of applications.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 24V 400 W
- Vacuum Motor Power 24V 400 W
- Power 2x12V (24V) 100Ahr
- Run Time 2.25 Hrs
- Deck Size 450 mm
- Speed 120rpm
- Capacity 30L
- Weight 122 kg
- Size 1150x1030x740m
TTB-3450T

The Twintec battery system from Numatic introduces 24V freedom to hard floor care by fitting the excellent 3450T with a battery system to give you hours of wire free cleaning.

The TTB-3450T is easy to use, easy to fill, easy to empty, easy to move, easy to transport and easy to service. So as you can imagine it’s pretty easy!!

The TTB-3450T model has twin 15-litre dirty water tanks that can easily be lifted on or off allowing ease of emptying in difficult situations.

Numatic have oversized the motor and power transmission and complimented them with their high performance Twinflo’ vacuum collection system and full floating polyurethane semi-parabolic floor nozzle.

The TTB-3450T is bristling with unique features to which Numatic have added their all new ABP system, this unique patented Adjustable Brush Pressure system allows power head performance to be varied to suit different floor conditions and requirements.

Full 30-litre capacity with a choice of single or twin 15-litre dirty water tanks, with a heavy duty 450mm scrubbing head (400mm with pads) which will leave you with clean and dry floors even in the most arduous of applications.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

- Weight 122 kg
- Size 1150x1030x740mm
TTB-4500S

Numatic aim to provide a range of machines where the increase in capacity is both practical and cost effective and this is the case with both their cable and battery machines.

Optimising operating characteristics is paramount in battery operated machines in order to conserve battery power and with this in mind Numatic increased the water holding capacity by 33% whilst only enlarging the cleaning path by 10% resulting in a dramatic 40% increase in the total floor area covered from a single fill and totally without loss of power and performance.

Built on a full stainless steel chassis and including non-marking polyurethane wheels, a 100A/hr battery, 24V brush transmission and vacuum performance, ABP system – (the unique patented Adjustable Brush Pressure), built-in charger facility and simple user friendly operator controls.

The total design concept lacks nothing and is simple to use, totally practical design which, when you really need just that little bit more, gives you exactly what you want.

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Brush Motor Power 24V 400 W
- Vacuum Motor Power 24V 400 W
- Power 2x12V (24V) 100Ahr
- Run Time 2.25 Hrs

- Size 1150x1030x850mm
IPC Gansow CT12

The CT12 is perfect for cleaning medium sized areas of any type of hard floor especially where there are lots of hard to reach areas.

The CT12 is perfect for places such as restaurants, bars and schools for cleaning the open hard floor surface areas and for getting under tables and chairs. Hospitals and Nursing Homes also buy CT12 for cleaning altro safety flooring around beds in the wards and bedrooms. This machine works by spraying the floor with a cleaning solution then scrubbing it with a large rotating cylindrical brush and then 2 suction squeegees remove all dirt water and residue leaving a perfectly clean and dry surface.

Features:

- CT12 will clean floors effectively moving forwards or backwards due to its double suction squeegees.
- CT12 has a folding handle for easy storage
- Removable recovery tank for easy emptying
- Adjustable brush pressure for different floor surfaces
- Easily changeable brush and squeegees, no tools required
- Made in Italy
- Heavy Duty construction
- Extremely manoeuvrable
- Cleans moving forwards and backwards
- Scrubbing width 350mm
- Suction width 420mm
- Productivity max 1250 m2/hour
- Brush x1 cylindrical
- Solution tank capacity 12 Litres
- Recovery tank capacity 13 Litres
- Power supply 230V mains
- Weight 36 Kg
- Dimensions 800x420x420mm
- 12 month parts and labour warranty
Comac Visper

Introducing the new Comac Visper 35B
The smallest battery-powered scrubbing machine with 35 cm working width on the market.

Ideal for maintenance cleaning of small-size and congested areas that are hard to clean with the small traditional mains-powered scrubbing machines or with manual systems. Vispa 35 B is battery-powered and therefore cable-free so that it can operate freely in tight and congested areas.

Vispa 35 B can move easily under tables, clean accurately room corners and have access in areas with many obstacles thanks to its handle bar which ensures 180° flexibility.

Product Specifications:

- Working width mm 350
- Squeegee width mm 440
- Working width up to m²/h 1050
- Solution tank l 10
- Recovery tank l 10
- Traction semi aut.
- Power supply V 12
- Machine dimensions LxHxW mm 682x1018x440
- Weight (empty machine)Kg 67
Powerstar Z1- Propane Scrubber Dryer

The world’s most powerful autoscrubber: the PowerStar Z1 Walk-Behind propane Autoscrubber with 16HP Kawasaki engine, 33" cleaning path, offering a full complement of features designed to enhance ease of use, performance and operator safety.

Propane power offers unlimited run-time with no down time for recharging batteries. Quiet running water-cooled 437 cc Kawasaki engine. Large capacity tanks (132 Litres) require less frequent filling and dumping. 33" wide cleaning path saves time and labour. Regenerative blower technology provides 4 times the water pick-up of conventional battery-powered scrubbers. Adjustable brush/pad pressure offers optimal flexibility in different applications. Brushes/pads and solution flow stop automatically when accelerator is released. Squeegee raises automatically when machine goes into reverse. Easy operation includes user-friendly controls, automatic braking, and emergency stop. Durable construction with industrial components yields long life.

Product Specification:

- Scrubbing rate 33,000 square feet/hr - 3066 square metres/hr
- Cleaning width 33" / 84 cm
- Pads/brushes 2 x 17" / 43 cm
- Squeegee width 42" / 107 cm
- Scrub pressure 120-250 lb / 55-113.5 kg
- Solution & Recovery tank capacities 132.5 Lt / 35 US gal
- Engine Kawasaki 16 HP liquid-cooled
- Engine speed 3100 RPM
- Brush motor 2 hydraulic motors, 200 rpm
- Pump Dual hydraulic pump
- Vacuum fan Re-generative blower, hydraulic
- Noise level <80 dBA
- Vibration level Less than 2.5 m/s
- Weight w/cylinder 860 lb / 390 kg
- Length x width x height 66" x 26" x 46.5" (168 cm x 66 cm x 118 cm)
Karcher BR 400 (110v) Scrubber Drier

This walk behind scrubber dryer is ideal for all surfaces. Whether you are using it for tiled floors or on a non slip safety floor. It is just the right size for smaller locations such as restaurants and shops. Free place on our next available hard floor cleaning training course.

Features:

- Twin roller brushes
- Forward and reverse operation
- Lightweight, simple to use
- Excellent results on profiled flooring
- Tough and durable
- Easy brush replacement
- Scrubs/vacuums/polishes

Product Specifications:

- Working width, brush : 400 mm
- Working width, vacuum : 420 mm
- Tank capacity fresh/dirty water : 8.5/10 ltr
- Performance : 400 m²/h
- Brush speed : 1500 rpm
- Brush contact pressure : 250 g/cm²
- Motor rating : 2500 W
- Power supply : 230/50 V/Hz
- Weight : 31 kg
- 110 volt model
Karcher BR 400 Scrubber Drier for small areas

This walk behind scrubber dryer is ideal for all surfaces. Whether you are using it for tiled floors or on a non slip safety floor. It is just the right size for smaller locations such as restaurants and shops. Free place on our next available hard floor cleaning training course.

Features:

- Twin roller brushes
- Forward and reverse operation
- Lightweight, simple to use
- Excellent results on profiled flooring
- Tough and durable
- Easy brush replacement
- Scrubs/vacuums/polishes

Product Specifications:

- Working width, brush : 400 mm
- Working width, vacuum : 420 mm
- Tank capacity fresh/dirty water : 8.5/10 ltr
- Performance : 400 m2/h
- Brush speed : 1500 rpm
- Brush contact pressure : 250 g/cm2
- Motor rating : 2500 W
- Power supply : 230/50 V/Hz
- Weight : 31 kg
- 240 volt model
Karcher BD 40/25 C Ep/Bp

From the well respected and world renowned company Karcher comes this manual steering scrubber dryer system for all your hard floor cleaning needs. The BD 40/25 operates with disc brushes and performs so well it can manage up to 1600 m²/h.

The BD 40/25 utilises a 25 Litre tank in tank system for fresh and waste water that enhances the machines stability, reduces its dimensions and also speeds up set up times. Making it ideal for the economic cleaning of all hard surfaces, maintenance cleaning and polishing.

With the BD 40/25 you have the choice of purchasing either a mains or battery operated system depending on your needs. *Available in 240v mains version or battery wet & gel versions

The Big Cleans range of scrubber driers is ideal for cleaning hard floor surfaces. Whether you need a scrubber drier for cleaning large hard floors or small, whether you want a walk behind scrubber drier or ride on we have a product for you.

Product specifications:

- Working width Brush 400mm
- Working width vacuum 770mm
- Tank capacity fresh/dirty water 25/25l
- Area performance 1600m²/h
- Brush rotation speed 200 Revs/min
- Brush contact pressure 35/38g/cm²
- Power supply 240/50V/Hz or 24/80ah
- Motor rating 1580W
- Weight 61/123kg
- Dimensions 800 x 575 x 830mm (LxWxH)
Karcher BD 55/60 W Bp

The Karcher BD 55/60 W Bp is a large robust, lightweight walk-behind scrubber drier with roller brushes with the ability to clean and maintain hard and resilient floors quickly and efficiently. The BD 55/60 is ideal for supermarkets, factories, warehouses and sports halls thanks to its compact dimensions and easy handling.

The BD 55/60’s main features include an extra wide squeegee making the machine exceptionally manoeuvrable around corners and obstacles, integrated bin in the scrubbing head, contra rotating brushes that distributes water evenly on the surface, user friendly control panel and fresh water gauge.

Product specifications:

- Working width brush 550mm
- Working width vacuum 850/940mm
- Area performance 1500m²/h
- Brush rotation speed 240 revs/min
- Brush contact pressure 35-40g/cm²
- Battery 24/180V/Ah
- Motor rating 1400W
- Weight 115kg
- Tank capacity fresh / dirty water 60/60l
- Dimensions 1465 x 674 x 1162mm (LxWxH)
BD 75/140 R Bp

The BD 75/140 is from Karchers product range of super tough sit on scrubber dryers and is extremely with a large 140 litre fresh water tank and compact construction.

This system is ideal for cleaning large areas such as supermarkets, production shops and warehouses.

Designed with an innovative way of cleaning FACT (Flexible Application Control Technology) so that the brush speeds can be easily varied dependent on the surface type.

Features of this unit also includes the intelligent metering technology from Kärcher, disc brushes with a working width of 750 mm, high battery capacity and large water tank.

Working width brush 750mm
Working width vacuum 940mm
Area performance 4500m2/h
Brush rotation speed 180 revs/min
Brush contact pressure 47g/cm²
Battery 24/240V/Ah
Motor rating 2500W
Traction motor 600W
Weight 230kg
Tank capacity fresh / dirty water 140/140l
Dimensions 1550 x 870 x 1340mm (LxWxH)
BD 90/140 R Bp

A hard working yet extremely versatile Ride-on scrubber drier with disc brushes, a working width of 900 mm and large 140L water tank. The chassis has been designed so that they only need 1.6 metres between walls to turn. The longlife battery and compact construction of these heavy duty units make them ideal for use in areas that are normally reserved for big walk behind models, i.e. supermarkets, warehouses and factory floors. Other features include the automatic electronic control of brush contact pressures and EASY operation (Ergonomic Application SYstem - simple to use, self explanatory symbol system with a single button operation panel).

* Other versions available, for more information please contact our customer service team.

The SD40 from Victor utilises a simple to use pictorial control panel that makes operating the SD40, and training a new operator, quick and easy. All the functions can be controlled independently allowing greater flexibility in your cleaning routine to maximise results.

A pre-scrub can be carried out by activating only the solution and the brush, giving the chemical increased reaction time before picking up the solution and dirt during regular passes with the vacuum running.

In Summary, the SD40 is highly maneuverable and its high down force improves cleaning performance. The quick change squeegee means no need for a service visit to change rubbers, and its key operation helps to prevent tampering when the machine is not in use.

Drying Width (mm) 750

The SD15 from Victor is a 15 litre capacity scrubber drier that can be operated either working forwards or backwards due to the
squeegee’s located either side of the brush. The brush itself is fully floating so it can adapt to uneven floors giving them an even clean.

Furthermore, the SD-15 cleans right up to the edge of any floor due to its extended brush. The brush can also be easily removed for cleaning, or changing to one of the others available for use on a different floor type.

The brush, vacuum, and solution spray functions can all be individually controlled allowing the operator to tailor the clean to the floor requirement.

For example on a particularly dirty floor you may utilise the brush and spray functions to carry out a pre-scrub, agitating the cleaning solution on the floor, giving the chemical maximum contact time for a more heavy duty clean.

Victor’s Pro Series of rotary machines offer unrivalled value and performance across a range of hard floor cleaning tasks including scrubbing, buffing, spray cleaning and bonnet mopping.

At 300 rpm the Pro Series provide the flexibility to effectively carry out most hard floor cleaning tasks. Fit the optional tank for scrubbing or bonnet mopping or change to pads to carry out stripping, scrubbing, mark removal, buffing and spray cleaning.

As with all Victor machines, the Pro Series are delivered fully assembled and ready for use. A drive board is included so you can just attach the appropriate pad and start cleaning.

The Sprite 300 offers ultimate cleaning performance and versatility in a convenient size for use where conventional machines are too large.

The Sprite 300 is one of the most versatile machines on the market today, the compact size and low profile allows it to be used in the tightest of areas.

The Sprite 300 operates at our standard speed (240 rpm) to give the operator the opportunity to carry out a number of cleaning tasks on both hard floors and carpets.

As you would expect from such a versatile machine, a full range of accessories is available for the Sprite 300. These include tanks and a variety of brushes, polypropylene for scrubbing, gumati brushes for polishing and shampoo brushes for carpets.

The fold over handle allows the machine to be stored in the smallest of cleaning cupboards, and the brush hook on the rear of the handle provides convenient storage for either a brush or drive board.

The 20” Victor Lynx operates at a full 1080 rpm to give excellent productivity in both spray cleaning or burnishing and a superior floor finish whatever the surface.

The simple to use Lynx keeps operator training to a minimum through its straight line operation, and the silent passive dust collection provides optimum dust pick up where the noise of a vacuum is an issue.

In areas where a spray bottle cannot be used to put cleaning solution onto the floor an optional Solution Dispenser can be fitted, controlled from the handle the attachment dispenses solution directly onto the floor safely.

The Lynx features a foldover handle and can be tipped onto the rear castors to be stored in the smallest of areas. The Lynx 20 uses 20” (500 mm) pads.

The 17” Victor Lynx operates at 1080 rpm to give excellent productivity in spray cleaning or burnishing, and a superior finish on the floor.

The L17V comes complete with a vacuum attached to remove all dust and fine debris created through the spray cleaning or burnishing process. The vacuum can be fitted with HEPA filtration to make a positive contribution to indoor air quality.

When the vacuum is removed the handle can be folded over and the Lynx tipped back onto the castors on the rear of the machine to be stored in the smallest of areas.

The easy to use straight line operation of the Lynx cuts training time. The L17V uses 17” (450 mm) pads.

The Victor Europa V-Series is available only in super high speed and comes complete with an exhauster and quick release skirt.

The vacuum attachment, standard with the Europa V-Series can be fitted with HEPA filtration for improved cleaning and protection for operators and building users.

The Europa V-Series combine this mark removal capability with active vacuumation for dust removal when spray cleaning or burnishing at super high speed.

The Victor Europa 450 uses 17" (450 mm) pads. The price includes a Drive Board.

The Victor Europa provides excellent mark removal capability when scrubbing using the standard speed.

Standard speed is used for scrubbing, stripping and carpet cleaning. A wide variety of attachments can be added to assist with each task, for example tanks and a splash skirt for scrubbing and stripping, and a variety of 17" (450 mm) pads are available to suit the application.

The Europa also features a power take off to allow the fitting of a vacuum and skirt when sand screening floors.

Victor’s 450 Multispeed Rotary offers 3 operating speeds, 200 rpm, 400 rpm and 600 rpm. This makes this machine incredibly versatile and gives the user unlimited cleaning power with the capability to carry out any hard floor cleaning task and effectively bonnet clean carpets.

The Multispeed features a controlled soft start. This is particularly useful for inexperienced operators and makes the machine easy to control on start up during carpet bonnet mopping or shampooing.

To assist the operator, and help produce that perfect finish, the full range of accessories including boards, pads, brushes, tanks and the vacuum and skirt attachment are available to be fitted on this machine.

To assist the operator, and help produce that perfect finish, the full range of accessories including boards, pads, brushes, tanks and the vacuum and skirt attachment are available to be fitted on this machine.

The Victor SX15 carpet cleaner utilises the power of a solution spray that is then agitated deep into the carpet pile by the chevron bristled brush, the powerful vacuum then removes the solution and dirt from the carpet, depositing it in the separate recovery tank for simple emptying.

The brush is removable to allow quick cleaning of the brush and the housing, ensuring great results and long machine life.

The solution dump hose allows easy emptying of the solution tank, but also doubles as a useful solution level indicator.

All the machines functions are individually controlled to give operators total freedom to clean effectively given any situation.

The CX-7 sprays a fine mist of cleaning solution onto the carpet, then actively removes the solution and dirt in one easy action. Weighing only 9.5 kg the CX-7 is easily portable with its centralised carrying handle.

Separate solution and recovery tanks make the CX-7 quick to fill, easy to empty and simple to keep clean. The clear dome allows the operator to see the dirt being collected and whether foam is collecting in the tank.

Upholstery can also be effectively cleaned using the optional upholstery attachment.

The M20 from Victor is the battery scrubber that delivers outstanding cleaning performance and unrivalled productivity. The M20 comes complete with 110A/H batteries that will deliver 3 hours runtime or can be specified with the Victor Fast Charge System that will deliver a shorter initial runtime but over the course of an 8 hours shift will provide a 200% improvement in productivity (as shown by the diagram below).

Key features such as the easy to clean recovery tank and simple to use controls (lifting the squeegee stops the vacuum motor) makes the machine perfect for inexperienced operators and makes training quick and easy.

The machine can be fitted with either a brush or a pad drive to be specified at the time of order.

The Victor FSX Battery offers ultra speed (1000rpm) burnishing, excellent battery performance and a flexible driveboard to work with the contours of the floor. The FSX features an isolation key that operates as an extra layer of safety to prevent tampering, or use by unauthorised personnel.

The Victor FSX has no trailing power leads allowing safe cleaning at any time of day. The batteries can be fully recharged from empty to be ready for their next use in six hours, using the on board battery charger that can simply be plugged into the nearest socket to start charging.

High technology gel batteries ensure no danger of battery leakage, and safety in charging and transportation. The battery level indicator uses a simple colour system to indicate how much charge the batteries contain and when they need charging.

The Victor M16 is the small scrubber drier that delivers unbeatable cleaning performance with unrivalled productivity.

The M16 has large separate tanks each with a 20 litre capacity to keep you cleaning longer. Its unique design delivers this large cleaning range from an extremely small footprint making the M16 easier to store and more portable than most other scrubber driers.

The Victor Fast Charge System, which is optional on the M16, helps you to get maximum productivity during your cleaning day. It delivers a re-charge time of only 30 minutes after a runtime of over 1 hour. Letting you get far more cleaning done during your working day when compared to other machines of its size.

Ideal for locations where cleaning needs to take place more than once a day or a machine needs to be available for picking up spillages or emergency cover all day.

Victor’s WV35N is a powerful wet vacuum with an impressive 35 litre capacity.

The internal float assembly has been specially constructed so that it has the unique ability to float on foam protecting the motor from sucking water into the vacuum’s internals thereby preventing any damage from occurring.

Like its sister machine the WV35N has a dump hose fitted at the rear for easy emptying. The dry use filter option is HEPA, for safer dust removal.

The WV35N has a wide cleaning width of 600 mm created by its self-levelling squeegee, and is easy and comfortable to use. Available in both 1110v and 240v configurations with either fixed head squeegees or hose and wand configurations.

The Woody from Victor is the ideal machine for use in areas where versatility is important, and safe removal of dust is paramount.

The Woody features high specification HEPA filtration, the machine itself exceeding IEC60312. HEPA filtration ensures particles collected down to 0.3 microns in size (smaller than bacteria) are not dispersed back into the atmosphere.

The Woody is capable of cleaning 800 m²/hr and has a large capacity of 35 litres. All the dust is collected safely into a large paper dust bag making disposal safe. The mesh bag inside the machine helps to prevent paper bag bursts, and its carrying handles make removing the paper dust bag and disposing of it clean, quick, and easy.

The use of the wand and tool kit (including floor brush, carpet tool and crevice tool) allows dust removal from even the smallest of areas, and from a variety of surfaces.

Flouroselect offers an advanced level of protection against general soils and common household spills.
ECLIPSE® d-LIMONENE DEGREASER

Eclipse D-Limonene Degreaser is an extra-strength, all-purpose degreaser designed to remove the toughest grease build-up. 4x4 Litres.

FEATURES
- Concentrated for economical use
- Quickly removes grease build-up
- Phosphate free formula
- Fortified with natural citrus solvents - no petroleum solvents
- Effective on most washable surfaces

ECLIPSE® NEUTRAL ALL PURPOSE CLEANER

Low pH, all-purpose daily floor cleaner removes dirt and soil without harming the shine. May be used on all washable surfaces.

FEATURES
- Concentrated for economical use
- Low foaming – easily applied with mop, sponge or autoscrubber
- Effective cleaner for deep scrubbing
- Excellent cleaner for use after stripping or deep scrubbing to neutralize the floor surface
- Pleasant light, lemon fragrance

ECLIPSE NEUTRAL CLEANER
Eclipse NeutraL Cleaner is a Low pH, all-purpose daily floor cleaner removes dirt and soil without harming the shine. May be used on all washable surfaces. 4 x 4 litres

EnviroStar Green All purpose Floor Cleaner

An environmentally friendly cleaner formulated for daily use with low, fast breaking foam and neutral pH. Case: 4x4 ltrs.
Product Code: EnviroStar Green All purpose Floor Cleaner
ECLIPSE ORANGE DEGREASER

Pioneer Eclipse Orange Degreaser is a multi-purpose industrial strength degreaser. **4 x 4 Litres**

Rebound Maintainer and cleaner

Concentrated one step cleaner/enhancer. Cleans and enhances coating for brilliant wet-look shine when burnished with UHS burnishers. 11% solids Case: 4x4 ltrs.
EnviroStar Green Maintainer

EnviroStar Green Maintainer-pack of 4.

Floormatte Non Glare Floor Polish

Floormatte is an advanced floor coating specifically designed to provide a highly durable finish, without glare, for use in hospitals and long-term care facilities. 16% solids 4X4Litres.
Star Brite Floor Polish

StarBrite is an excellent, low maintenance coating with outstanding resistance to scuffs, scratches, black heel marks and detergent scrubbings. 20% solids-Case of 4 x 4 litre.
REVOLUTION 2000 PREMIUM FLOOR COATING

Revolution 200 Premium Floor COATING A technologically advanced acrylic co-polymer coating designed to achieve a durable, brilliant wet-look shine. 28% solids 4 x 4 litre pack.

Wonderglo Low Maintainance Floor Polish

WonderGlo is a low maintenance floor polish which gives a durable finish, with a high gloss straight off the mop. Stands up to the challenges the cleaning contractors are facing with low or moderate maintenance programs where lower solids finishes simply do not hold up and the appearance of the floor goes down too fast. The finish has good leveling characteristics, which you can buff, but don’t have to; it is excellent to clean and scrub back and has good resistance to black heel marking. 22% solids 4x4Litre.
EnviroStar Green Floor Polish

A high solids premium green floor coating designed specifically for ease of application and maintenance while consistently providing a beautiful, durable and safe wet-look shine. 25% solids.

First Step Sealer

First Step Sealer is a water-based sealer that protects high traffic areas and old or porous floors from dirt, grime, water and stains. Provides a very durable foundation for high speed burnishing. 18% solids Case: 4x4 ltrs.
**ECLIPSE® HARD FLOOR FLOOR COATING**

A polyurethane-fortified acrylic co-polymer floor coating specifically designed for concrete, stone and similar hard floor surfaces.

**FEATURES**
- Ideal for less frequent maintenance program (4 or fewer days/week)
- Longer lasting, less costly to use
- Highly scuff resistant
- Easy to remove
- Water-based formula
- No harsh solvent odors
- Self-sealing
- Classified by UL as to slip resistance only

---

**ECLIPSE HARD FLOOR COATING**

Eclipse Hard Floor Coating is a polyurethane-fortified acrylic co-polymer floor coating specifically designed for concrete, stone and similar hard floor surfaces. 19% solids 4X4Litre.

---

First Step Sealer

First Step Sealer is a water-based sealer that protects high traffic areas and old or porous floors from dirt, grime, water and stains. Provides a very durable foundation for high speed burnishing. 18% solids Case: 4x4 ltrs.
ECLIPSE HARD FLOOR COATING

Eclipse Hard Floor Coating is a polyurethane-fortified acrylic co-polymer floor coating specifically designed for concrete, stone and similar hard floor surfaces. 19% solids 4X4Litre

EnvioStar Green Floor Sealer

Product Code: EnvioStar Green Floor Sealer

Eclipse Porous Floor Treatment

A ready-to-use, water-based indoor/outdoor solution designed to provide stain resistance to materials such as concrete, natural stone, brick, unglazed ceramic tile and grout. Case: 4x4 ltrs.
Envirostar Green Polish Stripper

An environmentally friendly low-foaming, non-corrosive formula requiring less contact time to penetrate. Case: 4x4 ltrs.

Formula X Gel Stripper-Aerosol

Formula X Gel Stripper-Aerosol is a heavy duty, fast acting, clinging stripper that removes floor finish build-up from baseboards with maximum efficiency. Case: 12x510g

Prochem Urine Neutraliser

Sanitisers & Odour neutralisers

This is an exclusive Prochem acidic deodorant for neutralising and deodorising urine by direct application. Neutralises odour from urine deposits on contact and prevents staining. Yellow tinted liquid with fresh fragrance.

Dilution 1 to 1 or ready-to-use pH 4.
Prochem Clensan

Sanitising carpet cleaning chemicals

Prochem's Clensan is a specially formulated sanitiser for carpets and fabrics. Clensan provides protection from bacteria and odours caused by floods, mould, mildew and food spoilage. Apply by sprayer and rinse extract or mix with Crystal Green for combined cleaning and sanitising. Clensan is a clear liquid with herbal lemon fragrance.

Dilute from 1:10 up to 1:50

Prochem Odour Neutraliser

Sanitisers & odour sprays

Prochem Odour Neutraliser is a highly concentrated odour neutraliser for smoke and odour contaminated carpets, fabrics and hard surfaces. Apply by sprayer or fogger or add to cleaning solution. Also available as new continuous action gel. Contains no solvents or bactericides. Turquoise liquid with deodorant fragrance. 5 Litre

Dilute 1 to 100 pH 7.5, 5L

Prochem Stain Pro

Stainpro from Prochem is a heavyduty water and solvent based alkaline protein spotter for blood vomit, wine, ink, fresh tea and coffee and most food based stains, Clear Liquid with minty fresh smell.

Ready to use
Prochem Neutral Pro Spotter

Neutral Pro Spotter from Prochem is a professional neutral pH spotter that is effective on most food, drink and water based stains. Can be applied and left to dry to a powder for vacuuming or brushing away. Approved by Woolsafe.

Prochem Citrus Gel

A citrus solvent and detergent based liquid gel spot remover for oil, grease, tar, gum and other oily spots on carpet and fabrics. Citrus Gel can be used safely on many spots and stains and is formulated to work on the fibre surface avoiding problems with latex backings which commonly occur with other citrus based solvents. White gel with citrus fragrance.

Prochem Red RX

Red RX has been specially developed and formulated for the removal of red food colourings, carbonated drinks, fruit juices and wine stains from carpets and most fabrics. Can be effective using a damp towel and a warm iron - as directed on product label.

Car snow brush 500x25 mm

Vikan Transport System®
Item number 520052
Car snow brush with ice scraper made of black polypropylene with green PVC filaments.
Deluxe Snow brush w/telescopic handle, green filaments, EAN + DUN code, 6 pieces/carton
Vikan Transport System®
Item number 521652

Handle ø30 x 1500 mm
Vikan Transport System®
Item number 535252-1500
Flexible stainless steel handle for Pipe & Tube brushes.

Rim cleaner soft 230x110 mm waterfed
Vikan Transport System®
Item number 545252
Large wheel rim brush made of solid black polypropylene with soft red/green filaments. The brush is suitable for cleaning large wheel rims, e.g. on lorries and busses.

Nylon scrub holder 230 x 95 mm, black
Vikan Transport System®
Item number 550052

This nylon scrubber holder with pivot is suitable for cleaning a variety of straight surfaces, e.g. walls, ceilings and large window areas on trains and busses. The holder is attached a soft pad and is particularly good for removing insects, etc. Pads are available in packs of 10 and are replaced when worn. The white pad should only be used on glass or walls and ceilings made from a hard material.

Interior brush stiff 290x35 mm

Vikan Transport System®

Item number 450052

Interior brush made of foamed polypropylene with red/green filaments in stiff polyester. The brush is especially useful as a upholstery brush for cars, busses and lorries. The brush is 27 cm long.

Hard Floor Training Course

“PROFESSIONAL FLOORCARE TRAINING COURSE”

VENUE: 100 Ewell By-Pass, Ewell, Surrey, KT17 2PR

DATE: Email us for more info
COMMENCING AT: 9:00am

1. Coating technical basis
2. Floorcare Processes
3. Trouble shooting
4. Chemical products safety
5. Wooden floors

Click on the link that says more information

The course fee is £120.00 + VAT and includes a “Professional Floorcare Certificate of Attendance,” all refreshments and course literature, troubleshooting guide etc. Payment is required in advance. This course is designed for both experienced and intermediate operators who have some previous knowledge of floor care systems.

It takes the students through the fundamentals of floorcare, understanding of the chemistry involved, troubleshooting and fault diagnosis, implementation of correct maintenance programme and how to achieve beautiful looking floors.

The topics covered in this course are as follows:

1. Coating technical basis
   • Basic composition of floor coatings
   • Film forming process
2. Floorcare Processes
   • Routine cleaning
   • Restoration
   • Deep scrub and re-coat
   • Strip and re-coat
   • buff/burnish
3. Trouble shooting
4. Chemical products safety
   • Basic safety rules for all chemical products
   • Material safety data sheets
5. Wooden floors
Call 0208 3934778 for pricing and further information on any products in this catalogue

- Basic sanding and preparation
- Sealer and top coats application
- Routine and periodical maintenance.

The course fee is £120.00 + VAT and includes a “Professional Floorcare Certificate of Attendance,” all refreshments and course literature, troubleshooting guide etc. Payment is required in advance. Refunds are only available if notification is received five days prior to the course date.

1-2 Days delivery on almost all products.

VAT will be added at the secure payment stage

Commercial backpack vacuum cleaner

- **Superior 71 dB** rating for whisper quiet operation;
- Ergonomically designed back support and harness;
- Lightweight at only 10.5 lbs.;
- Four stage filtration with 100 inch waterlift;
- Complete set of tools and adjustable double bend wand.

**Product Specifications:**

- Model Number: PF300BP
- Motor: 1 stage, 230 volts
- Bag: 1.5 gallons
- Agitator: Crevice, dust, carpet tools, hard floor
- CFM: 120
- Cleaning Width: 11 inch
- Wattage: 1400
- Volts: 230
- Approvals: ETL/AS4260.2 (Int) with HEPA filter
- Weight (lbs.): 10.5 lbs.
- Warranty: 1 year motor, parts, workmanship. Lifetime warranty on latches and shoulder straps.
RSV200 Numatic back pac vacuum

This back pack vacuum has 50% extra capacity compared to the RSV130. It does this without dramatically increasing the weight. It has a harness designed for comfort and stability. KIT A30A Full ruck sac kit (grey)

This great Back Pack vacuum cleaner comes complete with accessory Kit A30A

When it comes to congested environments there can be no doubt that the practical features of the RSV (Ruc Sac Vac) brings with it great advances in convenience cleaning, producing vastly improved results by virtue of the old adage "the right machine for the right job". In many countries Ruc Sac cleaning has become commonplace with substantial improvements in cost effective operation.

Particular attention has been paid to user comfort, convenience and safety with an ergonomically designed, comfortable harness system; lighter weight and lower noise levels.

The RSV's performance is excellent, with the extra large filter system and Hepaflo dust bags ensuring continuous operation and clean and easy emptying. The standard accessory kit incorporates all that is needed for quick and efficient cleaning of all surfaces.
RSV130T Ruck sac vacuum turbo brush

This turbo version of the RSV 130 is a genuine time saver as it reduces vacuuming time of large areas by upto 50%. 24 Volt safety specification power brush. KIT 21 RSV Turbo Electric Kit (grey).

There are many situations where large carpeted areas need to be cleaned in a short space of time and the speed with which the operator can achieve this is paramount.

By way of examples, conference centres, ballrooms, bars, restaurants, hotel, showrooms, shops and department stores. All of these high profile establishments need to be able to respond quickly to varying intensities of public presence.

The RSV is, by design, a Ruc Sac vacuum cleaner... you carry it on your back and when equipped with our 24V TurboElectric power brush system is will allow large carpeted areas to be cleaned in the shortest possible time, and really look clean!

Particular attention has been paid to the harness system to ensure user comfort and safety whilst the extra large filter system and Hepaflo dust bags ensure continuous high performance and clean easy emptying.

The accessory kit contains both power brush and standard accessories to cover the majority of applications.
The Powr-Pro back pack vacuum cleaner is one of the quietest and most powerful cleaners on the market today. Due its lightweight construction and extreme wearability it has become a firm favourite with crew cleaners around the world as it enables both tight spaces and large areas to be cleaned in seconds.

The Powr-Pro has been ergonomically designed and has padded shoulder and waist straps to ensure maximum comfort meaning it can be worn for hours without creating any discomfort.

- **Superior 71 dB** rating for whisper quiet operation;

- Weight (lbs.): 10.5 lbs.
- Warranty: 1 year motor, parts, workmanship. Lifetime warranty on latches and shoulder straps.
The RSV200 Numatic back pack has a 33% larger storage capacity than the RSV130T and yet is 100 grams lighter. The RSV 200 or (Ruc Sac Vav) enables far more cost effective cleaning by enabling the wearer to navigate around and clean a space far easier than is possible with a traditional vacuum.

The designers of the RSV200 had two key focuses when creating this masterpiece. Firstly they concentrated on ensuring it is comfortable to wear by designing it ergonomically so that the harness fits exactly right and provides just the right combination of comfort, safety and convenience. Secondly they ensured that the RSV200 performs to the highest possible standards by giving it an extra large filtration system including a Hepaflo dust bag. The standard accessory kit incorporates all that is needed for quick and efficient cleaning of all surfaces.

Product specifications:

- Microflo motor
- Power 230V AV 50/60Hz
- Motor Power 1100 W
- Airflow 40 L/sec
- Suction 2400 mm
- Capacity 9 L
- Cleaning Range 31.4 m
- Weight 6.3 kg
- Size 500x360x250mm
The RSV130T is a turbocharged Ruc Sac Vav equipped with the revolutionary Turboelectric Power brush. The combination of the RSV130T’s powerful suction and the turbo electric power brush make it ideal for cleaning large heavy traffic areas such as conference centres, shops or bars.

The designers of the RSV130T had two key focuses when creating this masterpiece. Firstly they concentrated on ensuring it is comfortable to wear by designing it ergonomically so that the harness fits exactly right and provides just the right combination of comfort, safety and convenience. Secondly they ensured that the RSV130T performs to the highest possible standards by giving it an extra large filtration system including a Hepaflo dust bag. The standard accessory kit incorporates all that is needed for quick and efficient cleaning of all surfaces. The accessory kit contains both power brush and standard accessories to cover the majority of applications.

Product specifications:

- Microflo motor
- Power 230V AV 50/60Hz
- Airflow 40 L/sec
- Suction 2400 mm
- Capacity 6L
- Cleaning Range 31.4 m
- Weight 6.4 kg
- Size 440x360x250mm
James is an easily recognisable classic just like Henry and Hetty and also like his older brother and sister he incorporates a very clever design. Beyond his attractive fun look James is a real powerhouse once the bright red on switch is pressed you can expect professional results.

The unique caddy top provides somewhere for your cable, the tools, even a duster and some polish, plus the cable is secured in the machine enabling easy replacement if it is accidentally damaged. Furthermore a large capacity, four wheel stability and large filters coupled with Hepaflo bags make James quick and efficient to use and simple to empty. Accessories are to full professional size and specification.

Product specifications:

- Motor power 1100w
- Power 230AC 50/60Hz
- Airflow 40L/sec
- Suction 2200mm
- Capacity 8L
- Cleaning Range 26.8m
- Weight 5.2kg
- Size 340x340x340mm
HRV200A

Henry has for many years been considered a classic and the respect he has earned is not just because of his instantly recognisable design, but also because of how effectively he gets the job done. Henry now features the Twinflo’ two-stage professional motor which gives exceptional performance, and has an AutoSave Energy Conservation feature giving a 50% Energy saving, 30% Improved Air Quality and 20% Lower Noise Levels. As the energy mode is automatic you always start with it on and just need to push one switch to receive the extra power needed for particularly stubborn or worn in dirt and grime.

The 10-metre cable storage and rewind system is trouble free and spring free keeping everything neat and tidy. The giant Tritex filter system makes sure that what goes in stays in, and the highly efficient Hepaflo dust bags, improve filtration efficiency, cleanliness and capacity. The standard accessory kit is fully comprehensive.

Product specifications:

- Motor Twinflo
- Power230V AV 50/60Hz
- Motor Power1200 W
- Airflow 45 L/sec
- Suction 2600 mm
- Capacity 9 L
- Cleaning Range 31.8 m
- Weight 6.9 kg
- Size 355x355x415mm
NRV200-22

Henry has for many years been considered a classic and the respect he has earned is not just because of his instantly recognisable design, but also because of how effectively he gets the job done. Henry now features the Twinflo’ two-stage professional motor which gives exceptional performance, and has an AutoSave Energy Conservation feature giving a 50% Energy saving, 30% Improved Air Quality and 20% Lower Noise Levels. As the energy mode is automatic you always start with it on and just need to push one switch to receive the extra power needed for particularly stubborn or worn in dirt and grime.

In this commercial version the 10-metre cable system has been replaced by a 12.5 metre storage and rewind system that is trouble free and spring free keeping everything neat and tidy. The giant Tritex filter system makes sure that what goes in stays in, and the highly efficient Hepaflo dust bags, improve filtration efficiency, cleanliness and capacity. The standard accessory kit is fully comprehensive.

Product specifications:

- Motor Twinflo
- Power 230V AV 50/60Hz
- Motor Power 1200 W
- Airflow 45 L/sec
- Suction 2600 mm
- Capacity 9 L
- Cleaning Range 31.8 m
- Weight 6.9 kg
- Size 355x355x415mm
NR200T-2

Henry has for many years been considered a classic and the respect he has earned is not just because of his instantly recognisable design, but also because of how effectively he gets the job done. Henry now features the Twinflo’ two-stage professional motor which gives exceptional performance, and has an AutoSave Energy Conservation feature giving a 50% Energy saving, 30% Improved Air Quality and 20% Lower Noise Levels. As the energy mode is automatic you always start with it on and just need to push one switch to receive the extra power needed for particularly stubborn or worn in dirt and grime.

In addition to all these great features the T200 comes with a 24volt TurboElectric power brush which is unique to Numatic and enables the removal of significantly greater amounts of soil and particulate matter making it ideal for professional cleaners and high traffic areas.

In this commercial version the 10-metre cable system has been replaced by a 12.5 metre storage and rewind system that is trouble free and spring free keeping everything neat and tidy. The giant Tritex filter system makes sure that what goes in stays in, and the highly efficient Hepaflo dust bags, improve filtration efficiency, cleanliness and capacity. The standard accessory kit is fully comprehensive.

Henry Xtra HVX-200-22

Henry has for many years been considered a classic and the respect he has earned is not just because of his instantly recognisable design, but also because of how effectively he gets the job done. Henry now features the Twinflo’ two-stage professional motor which gives exceptional performance, and has an AutoSave Energy Conservation feature giving a 50% Energy saving, 30% Improved Air Quality and 20% Lower Noise Levels. As the energy mode is automatic you always start with it on and just need to push one switch to receive the extra power needed for particularly stubborn or worn in dirt and grime.

The 10-metre cable storage and rewind system is trouble free and spring free keeping everything neat and tidy. The giant Tritex filter system makes sure that what goes in stays in, and the highly efficient Hepaflo dust bags, improve filtration efficiency, cleanliness and capacity. The standard accessory kit is fully comprehensive.

What differentiates Henry Xtra is its two unique additional features. Firstly Henry xtra has a 3-stage Microfresh filter system which enhances filtration to 98%, but more importantly - especially to pet owners – it includes a giant highly advanced activated charcoal filter membrane sandwiched between twin Tritex filters, providing an effective odour control system.

To top off this pet owners dream the Numatic Airo brush has been included which provides a superb level of carpet care and is excellent in aggregating pet hairs and other debris from pet friendly floors.

Product specifications:

- Motor Twinflo

George GVE370-2 Numatic

The true "all in one" machine that is totally at home be it in the wet or the dry.

This classic "all in one" is genuinely the family friend, dry vacuuming, wet vacuuming, scrubbing and drying hard floors, deep cleaning the carpet, cleaning the upholstery, unblocking the sink, you name it George is your man.
Kit Contents
1.9m Nuflex Bayonet Hose
300mm Combination Floor Nozzle
240mm Crevice Tool
Tritex Filter
Stainless Steel Extension Tube
Double Taper Hose/Tool Adapter
65mm Soft Dusting Brush
150mm Upholstery Nozzle
150mm Slide on Brush for Upholstery Nozzle
3.6m Cleantec Extraction Hose
Stainless Steel Extraction Trigger Bend Tube
Stainless Steel Lower Nozzle Extraction Tube
275mm Fishtail Extraction Nozzle
300mm Dual Scrub/Wet Pick UP Nozzle
100mm Upholstery Extraction Nozzle
Cleantec Trigger Valve and Spray Tube

Roomba's powerfull vacuum and counter rotating brushes reach deep into your carpet to remove dirt,dust and pet hairs. This vacuum is a perfect time saver and completely cool. Would be ideal for home owners and cleaning professionals alike.

NVQ370T-2 Numatic vacuum

The larger version of the NVQ200-22 is the NVQ 370T-2, it comes with the Turbo Electric Brush system allowing for fast and quiet cleaning which is handy in noise sensitive areas. Kit T20

When it comes to extensive carpet care there are two fundamental requirements: a really high performance efficient cleaner design and an efficient powered floor nozzle.

In the NVQ-370 Turbo you have everything that is needed plus numerous additional features.

The power head is all-steel incorporating our patented Microtec sound reduction system and the high performance Twinflo' motor system.

The primary Tritex filtration makes sure that what goes in stays in and the container, with its full 15 litre capacity, is equipped with our skid free 4-wheel mobility and stability package.

The Turbo Electric power brush system is truly unique with its 24 volt floating brush design automatically adjusting to varying floor surfaces.

Numatic HZQ370-2 hazardous dust vacuum

1100 watt motor 10 litre capacity-HEPA filtration -Primary pre-filter-All-steel construction

The Numatic range of Series 'H' vacuum cleaners has been specifically designed to meet the requirements of industries where it is necessary to remove dust that could constitute a health hazard. With this in mind Numatic came up with a 99.99% filtration design, put together with practical engineering features that ensure these machines can be easily and efficiently used and maintained on a day-to-day basis.

In selecting a Series 'H' machine, due consideration must be given to ensuring that the machine chosen is compatible with the volume of dust or material to be collected. Correctly selected, maintained and used, a hazardous dust machine will form an invaluable part of any system designed to control hazardous and health endangering dusts in any environment.

Specifications-

- Motor - 1200 watt
- Power - 230 volt
- Airflow - 45 litres/second
- Suction - 2600 mm.
- Capacity - 10 litres
- Range - 26.8 metres
- Weight - 10.4 Kg
- Size - 355 x 355 x 570 mm.
- Kit BB18

Features -

1. Microfilter module
2. Three stage filtration
3. All steel construction
4. Heavy duty castors

Snow brush

Vikan Transport System®

Item number 521552

Snow brush, for use in removing loose snow. The snow brush is made of black polypropylene and has a rubber handle and special bristle mixture.

Deluxe Snow brush w/telescopic handle- green filaments

Deluxe Snow brush w/telescopic handle, green filaments, EAN + DUN code, 6 pieces/carton
Shovel 260x950 mm

Vikan Transport System®

Item number 561552

Sturdy shockproof plastic shovel of polypropylene. The shovel is used for such jobs as shovelling snow if you get stuck. The shovel is often used by truckers who drive dangerous loads, where the ADR regulations requires lorries to carry a shovel for picking up spillage. The shovel is reinforced with a steel handle which is welded into the plastic.

Radiator brush stiff 45x480 mm

Vikan Transport System®

Item number 631052

The radiator brush is very suitable for cleaning radiators and small places in buses, trains etc.
Nail brush stiff 40 x 120 mm

Vikan Transport System®

Item number 644052

The nail brush is made of black solid polypropylene with stiff red and green polyester filaments. The nail brush is much bigger than normal nail brushes and made for workers in the professional industry. The brush is made of high quality durable filaments that withstand aggressive chemicals.

Wipe-n-shine, 35cm
Vikan Transport System®

Item number 707852

Wipe-n-shine is particularly effective in removing water and lime stains from car paintwork. The soft rubber is gentle on car paintwork and windows. All Wipe-n-shine scrapers can be fitted to all Vikan’s handles, which enables the scraper to be used on busses, trucks, trains and other vehicles.

Lustre cloth, 40x40 Red

Vikan Transport System®

Item number 709252

40x40cm, 80% polyester, 20% polyamide, 205 g/m². Ideal for lint free cleaning of glass and most shiny metal surfaces. Use lightly dampened with water - no detergent is necessary – then dry off to a polished finish. Washing instructions: The cloth can be washed up to 95° C and tumble dried at 55° C. Never use softeners, chlorine or other bleaches

Windscreen scraper w/sponge, 1000 mm
Vikan Transport System®

Item number 473552

100 cm windscreen scraper with sponge. The sponge is 20 cm wide and reinforced with strong wire mesh which facilitates cleaning and removal of insects. The handle is aluminium and can be screwed off. The sponge is detachable. This windscreen scraper is often used at service stations and wash facilities for washing the windows of goods vehicles and small buses which are difficult to access.

Vikan Transport System®

Item number 473952

Adjustable windscreen scraper with sponge. The sponge is 20 cm wide and reinforced with a sturdy wire net to facilitate cleaning and removal of insects. The handle is 60 to 125 cm long and made of aluminium. The sponge is detachable. The extra length of the windscreen scraper makes it ideal for cleaning the windows of trucks and busses.
Campaign hose brush

Vikan Transport System®

Brush for mounting on handles with water channels, for use in minor cleaning jobs. The brush is made of polypropylene with polyester filaments.

Car brush, soft, 400x90 mm

Vikan Transport System®

Sturdy car brush with water channel for large surfaces. Ideal for washing high up. The brush is made of foamed polypropylene with soft red/green polyester filaments. The brush is 40 cm wide.

Windscreen scraper w/sponge, 500 mm

Vikan Transport System®

Item number 473752

50cm long windscreen scraper with sponge. The sponge is 20 cm wide and reinforced with a sturdy wire net to facilitate cleaning and removal of insects. The handle is 50 cm long and made of aluminium. The sponge is detachable. The windscreen scraper is often used at service stations for washing passenger car windows.
Loose head for windscreen scraper, 20 cm.

Vikan Transport System®
Loose head for use with windscreen scrapers (473352, 473552, 473752, 473952).
Handle ø34x1020 mm

Vikan Transport System®

Item number 299252Q

Telescopic handle with water channel and 1/2” quick steel coupling. This ergonomic handle with water channel is made of aluminium with sturdy shockproof and grip-friendly plastic for comfortable and functional use. The handle can be used up to a pressure of 6 bar.
Handle ø34x1630 mm

Vikan Transport System®

Item number 299552Q
Telescopic handle with water channel and 1/2"" quick steel coupling. This ergonomic handle with water channel is made of aluminium with sturdy shockproof and grip-friendly plastic for comfortable and functional use. The handle
Handle ø34x1900 mm

Vikan Transport System®

Ergonomic handle with water channel. This ergonomic handle with water channel is manufactured in aluminium with sturdy shockproof and grip-friendly plastic for comfortable and functional use. The handle can be connected to 1/2" or 3/4" water hoses which are attached with a clip. The handle can be used up to a pressure of 6 bar.
Filta Pura

By using an RO/DI System we have removed 100% of impurities and dissolved solids from the water leaving us with 100% pure water 0.00 TDS. Water in this state has a very strong need to dissolve and absorb any kind of dirt or solids to return to its natural impure state. Like when you spray an air freshener at one side of a room within a short time you can smell it at the other side, this is diffusion a natural process that happens with air and water when a substance is highly concentrated in one area it naturally diffuses until it is perfectly evened out!

As soon as this pure water touches a dirty window it absorbs any dirt that is present with the aid of a soft bristled brush, all of the dirt from the window is now absorbed in the water and is then rinsed away. Once the window has been rinsed there is only pure water left on the windows surface, when this evaporates it leaves the window perfectly clean with no residue simply because there are no impurities in the water to be left behind. If we used tap water to rinse the window when it evaporated there would be lots of streaks and spots left behind this is all the limestone, dissolved solids and chlorine that are present in tap water.

So to achieve this absolute clean finish on a window we need 100% pure water. Reverse osmosis is vital for the perfect result in cleaning a window streak/spot free and for giving us water to 0.00 Tds.

Reverse osmosis is simply forcing water through a membrane. The membrane has microscopic holes in it which are only big enough for a water molecule to fit through, any impurities, dissolved solids, minerals etc cannot fit through the membrane and to speed this process up we use a pump to force only the pure water molecules through! This leaves all impurities on 1 side of the membrane which get automatically dumped through the systems dump hose.

98% of all impurities are now removed from the water leaving the di resin filter to remove the remaining 2 % resulting in absolute pure water being delivered to your windows.

The reverse osmosis filter 98% of all impurities which leaves only the 2 % for the resin filter to purify, if we sent tap water directly to the di resin without the RO membrane it would clog up and need replacing much sooner. This Results in the cost of pure water per gallon being far more expensive and also leaving us with not so high quality water being delivered to the windows.
Call 0208 3934778 for pricing and further information on any products in this catalogue

- This ro/di system will produce 1 litre of pure water for as little as £0.004
- A di resin only system usually produces 1 litre for at least £0.01
- FiltaPura5 will also produce up to 500 litres of pure water per hour
- Other RO systems average less than half this amount

As Victor say one of the best ways of creating an indoor airborne health hazard is to suck all the bacteria, fungal spores, dust mite faecal particles, and any other particulate allergens out of the floor, and then blow them liberally into the surrounding air, where they travel easily from room to room contaminating the whole building.

To prevent this cross contamination the Victor V9 features IEC60312 standard filtration. IEC60312 is the only international standard available for the measurement of air filtration efficiency of vacuum cleaners for household and similar use.

The test is performed with the complete vacuum cleaner mounted inside a sealed test rig specified by the standard. The cleaner inlet is dosed with measured amounts of standard dust, and particles in the discharge air are counted into six separate size bands down to 0.3 microns. The test approximates to actual use conditions and the results are standardised as a single percentage efficiency figure, enabling the direct comparison of one vacuum cleaner with another.

To meet the ‘HEPA’ standard of filtration the unit must remove particles larger than 0.3 Microns in diameter with more than 99.97% efficiency (i.e., fewer than 300 particles per million of 0.3 Micron size should penetrate).

The Victor V9 HEPA 9 litre tub vacuum, in tests, achieves an efficiency of 99.9965% - passing only 35 particles per million which is 8 times better than the standard allows.

Powerful suction and proven effective filtration make the Victor V-9 one of the most productive tub vacuum cleaners available.

If you need to clean potentially hazardous dirt in hygiene sensitive surroundings then the V9 is probably the vacuum for you.
The Victor 470 is Victor’s answer to the Sebo BS range providing a powerful twin motored upright vacuum cleaner.

The cleaning performance of this impressive vacuum stems from its twin motor design by using the vacuum and brush to provide an extremely deep vacuum clean.

With over 80% of dirt in carpets being dry soil, good vacuum performance is critical in successfully maintaining carpets.

The V-470 upright vacuum is a wider area twin motor upright vacuum with a cleaning width of 470 mm. The machine comes complete with extendable hose, wand and the availability of HEPA filtration.

Technical Data

Victor’s industrial range of Wet & Dry vacuum’s are made of stainless steel and are built to last and last.

Alongside their impressive reliability they offer all the quality features and reliability you have come to expect from a Victor product. These features include excellent lift properties whether the dirt is dry or wet, low noise operation enabling their use in sensitive environments and impressive capacities for prolonged operation without the need to empty.

The WD-60 features two motors for stronger suction and a genuine 55 litre capacity. Ideal for water pick up and suited for use during scrubbing or stripping floor care tasks, the WD-60 comes complete with dry filters and a complete range of tools for both wet and dry use.

Victor’s smallest rotary machine the Spirit 8 is designed to ensure that every operator can provide the pad or brush with the same down force to give a consistently effective clean. The relatively small brush size of 203 mm (8”) makes it ideal for cleaning small areas and edges when a big machine would be too unwieldy, particularly during floor stripping and wooden floor sand screening.

The Spirit 8 from Victor is far more efficient than a standard edging tool saving you time and effort whilst improving your results. Included with the Sprite 8 is the solution dispenser that allows the machine to be used for periodic mark removal on hard floors and scrubbing on tiled and toilet areas.

The battery operated Sprite 8 has been designed to provide all operators with the ability to clean the smallest areas of hard floors and edges effectively. And allows the operator to use the Sprite 8 absolutely anywhere due to its incredible portability.

The ease of use the operator experiences with the Sprite 8 really is second to none. The foldable handle makes storage a breeze while the maintenance free gel battery is charged by plugging one end of the cable supplied into the back of the machine, and the other end into a standard socket. The built in indicator lights inform the user how much operating time remains, and charging lights display the charge information.

The Sprite 8 comes complete with two brushes and a pad drive. One of the brushes is designed for polishing and whilst the other is for scrubbing enabling the operator to perform a range of cleaning tasks.
Technical Data

Product Code VR-BB150
Voltage 12 V
Run Time 1 Hour (Green Pad)
Battery Charge Time 5 hours

Battery Type Gel
Noise Level 50 DbA
Pad Size 203 mm (8”)
Pad Pressure 16 kg
Weight with Batteries 23 kg
Length 400 mm
Width 220 mm
Height (excluding handle) 375 mm
Charger 10 Amp

Victor’s V-9B Battery Tub Vacuum is a wonderfully powerful machine that gives the operator total freedom to clean wherever and whatever they wish. Featuring HEPA filtration and a 9-litre capacity despite its small size the V-9B is fully featured with all the same abilities as its hardwired relatives.

Cable free and very quiet it is ideally suited for daytime cleaning in an office environment where the noise and danger of cable machines is unsuitable.

The battery offers a runtime of just over 20 minutes which though it doesn’t sound long is offset by the incredibly quick recharge time of just 20 minutes, allowing the operator time to perform another cleaning time whilst it recharges. the standard machine and the included additional battery pack let you vacuum continuously.
Victor’s FSX Battery Spray Cleaner offers superb spray cleaning and mark removal capability, with the ability to use more aggressive floor pads for a better clean.

The FSX Spray Cleaner provides heavy duty cleaning and mark removal utilising battery power. Operating at 300rpm the user has the flexibility to spray clean or polish, and also remove marks with something a little more aggressive. The machine has a higher operating downforce than most other battery powered rotary style machines, adding to its cleaning capability.

The Victor FSX Spray Cleaner provides exceptionally long run times of over 2.5 hours from a single charge. The onboard charger charges batteries from empty within 6 hours by simply plugging into a normal socket.

Until recently, scrubber driers and burnishers were the only real options for cordless hard floor cleaning. Now the Victor Spray Cleaner provides more effective cleaning power than a burnisher with the ability to use more aggressive pads, spray clean floors, and remove marks.

Also, due to the Spray Cleaning process the floor is left much dryer than with a scrubber drier.

The FSX Spray Cleaner requires less regular maintenance than a scrubber drier, and with fewer parts to breakdown, jets to block and squeegee blades to change will give less downtime and significant cost in use benefits.
